Dear Service Rep,

As per my phone conversation with Jerry this date, I am sending you my rifle Model #721, Serial #81493, for repairs to the trigger and safety.

The safety has gotten to the point where it is too easy to release. It only takes a hard bump to disengage it. Also if you just brush against it, it will release, and on one occasion the gun discharged when the safety was released.

Please make whatever repairs are necessary and inform me of the costs so I can make arrangements for payment. Thank you in advance for your help.

Sincerely yours,

Mr. Jan G. TaraBori
