FIREARMS

Model 1100 Weighted Lt-20, 28 & 410 Ga. Skeet Sets

Completed prototypes of weighted skeet guns duplicating both the large receiver 20 gauge and the .410 gauge gun have been sent to Marketing for their evaluation.

Preliminary testing indicates that the present skeet sets can give the LT-20, 28 and 410 gauge guns the weight and balance of either the standard 20 gauge or 410 gauge skeet guns.

Testing on one of these sets will begin once Marketing makes a selection.
