- Model Seven, Single Shot Action
- 26 inch, Heavy Varmint Barrel
- Model 40-X Externally Adj. Trigger
- Thumbhole, Vented, Laminate Stock

19 **MODEL 673 GUIDE RIFLE**

- **History**
  - Modern version of the popular Model 600 Magnum series
  - Designed to be a fast-handling, powerful "guide" rifle
- **Features and Benefits**
  - Based on the venerable Model Seven action.
  - Machined steel ventilated rib with iron sights for fast target acquisition.
  - High strength, weather resistant wood laminate stock with stylish light and dark stripes, reminiscent of the original Model 660 stock.
  - 22 inch magnum contour barrel
- Available in .300 SAUM, .350 Rem. Mag., 6.5 Rem. Mag., and .308 Win.

20 **MODEL 710**

- **History**
  - Why build it?
  - Why sell it?
  - Developed by our R&D facility and produced in our Mayfield, KY factory.
- **Features and Benefits**
  - 3 bolt lugs lock directly into the barrel
  - Barrel hydraulically pressed into action
  - Button rifled barrel
  - ***2005 action sleeves are extruded steel***
- Standard long action *and* magnum calibers for most medium to large North American game.
- The *best* rifle on the market for beginning shooters and hunters.

21 **MODEL 7400**

- **History**
  - Introduced in 1980
  - Descendant of the 740, introduced in 1955
- **Features and Benefits**
  - Machined steel receiver
  - Consistent, accurate, and reliable in situations where rapid follow-up shots are necessary
  - 7400 has softest recoil of any auto-loading rifle on the market
- **FAQ's**
  - Will it cycle reduced recoil ammunition?
  - Maintenance Considerations

22 **MODEL 7600**

- **History**
  - Introduced in 1980
  - Descendant of the 760, introduced in 1955
- **Features and Benefits**
  - Machined steel receiver
  - Consistent, accurate, and reliable in situations where rapid follow-up shots are necessary
  - The Model 7600 is the most reliable pump action rifle on the market…a centerfire 870?

23

24 **MODEL 504**

Subject to Protective Order - Williams v. Remington

MAE00001949

- ***The new standard in rimfire rifles!!***
- Rock solid action machined from solid carbon steel bar stock resulting in centerfire rifle type strength and rigidity
- Dual bedding points
- Unique barrel to action attachment allows for retrofitting/customization without sacrificing strength
- Bolt locks up in rear of action and features dual extractors for positive feeding and uniform support of the cartridge
- 20" button rifled clean barrel with semi-match chamber to reduce free bore, yet still function with a broad spectrum of ammunition

25 ## MODEL 504

- Newly designed fire control is fully adjustable for weight of pull, overtravel and sear engagement by an Authorized Repair Center
- Features six-round metal magazine box that fits flush with the bottom of the stock
- American walnut stock features precision cut checkering, stylized grip cap, sling swivel studs and rubber butt pad
- Barrel channel machined with Model 700 style pressure pads
- Action is drilled and tapped for scope bases (unique bases)

26 ## MODEL 504 – Fire Control

- New design specific to this model
- Fully adjustable for overtravel, pull weight, and engagement by Authorized Repair Centers
- Engagement adjustment screw designed to limit minimum sear engagement
- Two position safety (trigger block)
- Safety positively returns the trigger under the sear when moved from fire to safe
- Trigger pull weight from factory set at 4.0lbs nominal

27 ## MODEL 504 – Bolt Assembly

- 90° Bolt throw
- Dual extractors for positive feeding and uniform cartridge support
- Rear lock up with bolt cam system locking up on shooters right of action (locks on action, not the stock)
- Cocking indicator visible from rear of bolt plug
- Field strippable without tools
- No ISS system on the Model 504
- Smooth round bell bolt handle and nickel plated bolt-body finish

28 ## MODEL 504 - Action

- Action machined from solid carbon steel bar stock, drilled and tapped for bases (unique bases)
- Dual bedding points for stable seating and alignment in stock
- Beefy design results in centerfire rifle type strength and rigidity (0.300" nominal wall thickness)
- Base action design lends itself to customization for competitive shooting

29 ## MODEL 504 - Barrel

- Unique barrel clamp and set screw design allows retrofitting and customization without sacrificing strength
- 20" sporter contour carbon steel barrel with satin blued finish
- Clean barrel – no iron sights
- 5-R button rifling derived from Model 40-XR target rimfire rifles
- Recessed crown to protect rifling
- Muzzle O.D. 0.598"

30 ## MODEL 504 – Magazine Box

Subject to Protective Order - Williams v. Remington

MAE00001950

- 6-shot metal detachable magazine box
- Staggered stack design
- Flush mount with bottom of stock
- Spring loaded magazine release for easy removal
- Easily disassembled for cleaning

31 ## MODEL 504 – Cutaway View

32 ## MODEL 504-T LS HB

- Free-floating, 20 inch heavy target barrel (0.90" O.D.)
- Brown laminate, Monte Carlo stock
- Eley Match chamber in the .22 LR
- Pinpoint accuracy with match grade ammunition
- Available in .22 LR and .17 HMR

33

34 ## Model 504 Custom C Grade

- Hand built and tuned in the Remington Custom Shop
- Hand crafted, 24 inch Model 40-X barrel, match chamber
- 5-R Button Rifling with concave target crown
- C-Grade, fancy American Walnut stock
- Stocks are hand fitted and epoxy bedded
- Rosewood fore-end tip
- High polished blued finish on all metal surfaces

35 ## MODEL 597

- **History**
  - Designed by our industry leading R&D facility in Elizabethtown, KY
  - The first firearm produced by our Mayfield, KY factory
- **Features and Benefits**
  - Dual bolt guide rails
  - Button rifled barrel
  - Proprietary barrel clamp system
- Available in .22 LR, .22 WMR, and .17 HMR
  - The only .17 HMR autoloader on the market

36 ## MODEL 597 - Cutaway View

37 ## MODEL 597 - Barrel Clamp

Subject to Protective Order - Williams v. Remington

MAE00001951

39

40

41

MODEL 870

- **History**
  - Introduced in 1950
  - Best selling firearm in history (nearly 9 million produced so far)
  - ***The standard by which all other pump shotguns are judged!***
- **Features and Benefits**
  - Receiver machined from a solid block of steel
  - Twin action bars reduce binding for smooth operation
  - Multiple safety features built in
  - The ultimate in reliability
- Wingmaster/SPS vs. Express
- A gun for all occasions

42

43

MODEL 1100

- **History**
  - Introduced in 1963
  - The best selling auto-loading shotgun in history!
  - First successful, production-line gas operated autoloader ever produced
  - Over 4 million produced to date.
  - ***The standard by which all other auto-loading shotguns are judged!***
- **Features and Benefits**
  - Receiver machined from solid steel
  - Hammer forged barrels
  - Very similar to the 870 in design and function
  - The lowest felt recoil of any autoloading shotgun on the market
- **Variations**
  - Target versions available for any competition from Skeet to Sporting Clays
  - Hunting versions available for a wide range of game from squirrels to waterfowl to turkey or deer.
  - Youth models also available for young or shooters of smaller stature
  - The *ONLY* auto loading .410 bore on the market

44

MODEL 11-87

- **History**
  - Introduced 1987
  - Why?
  - Pressure-compensated gas-operation offers unmatched versatility and comfortable recoil
- **Features and Benefits**
  - Receiver machined from solid steel
  - Hammer forged barrels
  - Twin action bars
- **Model Variations**
  - Premier
  - Special Purpose
  - Sportsman (new for 2005)
  - Super Magnum
  - Dale Earnhardt Tribute Series
  - Law Enforcement

45

MODEL 332

- **HISTORY:**
  - Introduced 2002
  - Borrows from 70 years of tradition in producing Over-Under shotguns
  - Styling and balance taken directly from the legendary Remington Model 32, considered by many to be the best handling American made over-under ever produced
- **Features and Benefits**
  - Frame machined from a solid billet of steel offers superior strength and longevity compared to investment cast frames.
  - Hammer forged barrels are strong, easily maintained, and built for durability.

Subject to Protective Order - Williams v. Remington

MAE00001952

– Locking lug design minimizes stress on the frame and is one machined piece (no welds, screws or fasteners to break).

50

MANAGED RECOIL AMMUNITION

51

52

MANAGED RECOIL AMMUNITION

53

PREMIER CORE-LOKT ULTRA

- Remington R&D designed using the latest in bonded bullet technology
- **Features and Benefits**
  - Accuracy
    - Results from perfect jacket thickness and concentricity
  - Weight Retention
    - Bonded bullet technology gives your customer an average of over 85% weight retention on even the toughest game
  - Reliable Expansion
    - Computer-engineered jacket design and bonded bullet technology give your customer an average of 1.8x diameter expansion over a broad range of distances

54

55

PREMIER AccuTip

- The ultimate medium sized game bullet
- **Features and Benefits**
  - Accuracy:
    - The gold polymer tip, boat tail base, and proprietary jacket design make this the most accurate polymer-tipped bullet on the planet.
  - Reliable Expansion:
    - This bullet is designed to offer instant, devastating expansion at the point of impact
  - Weight Retention:
    - AccuTip bullets feature an innovative ring near the base of the bullet that prevents jacket/core separation and results in the best average weight retention in its class
    - Average 65% weight retention through water into a steel plate vs. 35% from the nearest competitor

Subject to Protective Order - Williams v. Remington

MAE00001953

56 **PREMIER ACCUTIP**

57

- The original bonded polymer-tipped bullet
- A Remington exclusive
- **Features and Benefits**
  - Accuracy:
    - Precision formed polymer tip and boat tail base combine with our consistent loading process for match grade accuracy
  - Reliable Expansion
    - The polymer tip initiates instant 2x expansion upon impact
    - The specifically designed jacket controls the expansion to allow good penetration
  - Weight Retention:
    - The jacket and core are locked together using Swift's proprietary process, guaranteeing optimal weight retention

58 **PREMIER SCIROCCO BONDED**

59 **PREMIER MATCH**

- **Remington Premier Match Ammunition was introduced to provide:**
  - **Sub-MOA Accuracy**
  - **Factory ammunition suitable for competition, law enforcement, and military**
- **Features the Sierra MatchKing bullet, the standard by which all others are judged**
- **Proprietary bullet manufacturing processes insure absolute consistency**
- **Stringent loading methods guarantee your customer lot-to-lot consistency and accuracy**
- **Available in:**
  - **223 Rem: 62 gr HP (Match)**
  - **223 Rem: 69 gr MatchKing**
  - **6.8mm Rem SPC: 115 gr MatchKing**
  - **308 Win: 168 gr MatchKing**
  - **300 Win Mag: 190 gr MatchKing**
  - **300 RSAUM: 190 gr MatchKing**

60 **REMINGTON UMC AMMUNITION**

- Union Metallic Cartridge
- High quality, value priced ammunition
  - Made from all new components
  - Held to the same stringent quality standards as Remington Gold Box ammunition.
  - Available in a wide range of centerfire pistol/revolver and centerfire rifle calibers
  - UMC Leadless available for the ultimate in indoor shooting safety

61 **NEW REMINGTON-UMC PACKAGING**

62

63 **PREMIER HEVI-SHOT**

- Non-Toxic alloy of Tungsten, Nickel, and Iron (50/35/15)
- **Features and Benefits**
  - Accuracy
    - Patterns up to 18% tighter than steel
    - Patterns up to 25% tighter than lead
  - Reliability/Strength
    - More per pellet energy than any other ammunition on the market
- Difference between Waterfowl and Turkey Hevi-Shot:
  - Bird on the box
  - Extra sealant on primer of waterfowl shells
- Is Hevi-Shot safe for my barrel?

Subject to Protective Order - Williams v. Remington

MAE00001954

64 **PREMIER HEVI-SHOT**

65 **PREMIER CORE LOKT ULTRA BONDED SABOT SLUG**

- The only slug available that features Remington's proprietary bonding process
- Ultra-high velocities
- Flattest trajectory of any slug on the market
- Average of 1.8" group size at 100 yards
- Reliable 2x expansion at a wide range of terminal velocities
- Available in 12 gauge (385 grain) and 20 gauge (260 grain)
- This is *literally* a 150 yard slug.

66 **BUCKHAMMER SABOT SLUG**

- The newest member of Remington's industry leading line of shotgun slugs
- Utilizes Remington's newly developed and patented Slug Stabilization System
- 3" or better groups at 100 yards
- 13% more energy than any other lead slug on the market.
- 1 ¼ ounce lead projectile gives near 100% weight retention
- Expands to over 1 **inch** in diameter upon impact

67 **PREMIER STS AND NITRO 27 TARGET AMMUNITION**

- ***STS***: Skeet – Trap - Sporting Clays
- Features the only one-piece, compression formed hull on the market
  - Gives up to 4 times the amount of reloads versus the nearest competitor (15 to 20 reloads not uncommon)
- The most consistent factory target ammunition available
- New Nitro 27 loads feature a new wad and specially blended powders for the lowest recoil of any high powered target loads
- Low recoil 20 gauge loads for O/U and S/S
