		Gentlemen - Enclosed is a 700BDL Remington, Cased in the Case my Customer had the accidental discharge of this rifle. I at the dealer feel real fortunate that there were no serious injuries or a death resulting from this mistake. Due to all the adverse gun legislation and advertising against the dealers and you the manufacturer, I feel strongly that this rifle should be repaired and returned at no charge, and I also feel my Customer's case should be replaced to him with a like model at no charge. We await your decision + reply Sincerely, George M. Bartelmay
