HELLO REMINGTON ARMS,

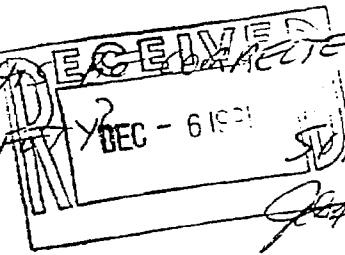

MY MODEL 721 300 H&H MAG,
334973
HAS GIVEN ME WONDERFUL
HUNTING TRIPS SINCE 1957.

SATURDAY, 11-30-91, THE LAST OF
OUR RIFLE DEER SEASON. TOOK
THE SAFETY OFF AND THE RIFLE
DISCHARGED! FINISHED UNLOADING
CAUTIOUSLY. DRY RACKED AND THE

RIFLE DRY FIRED.

TOOK THE MAG TO OUR LOCAL GUN-
SMITH AND HE SAID THE TRIGGER
ADJUSTING SCREW (ALSO FOR THE SAFETY)
WORKED LOOSE, CAUSING THE RIFLE TO
FIRE!

CAN THE RIFLE BE REPAIRED, LIKE THE MODEL
78 SAFETY?

SINCERELY
Joseph L. Bokor
