September 15, 1981

Dear Sir,

I am trying to locate a rifle that was shipped to you by way of UPS on June 17, 1981. I am a federal firearms license holder and I shipped this rifle for a customer of mine. It was sent in for replacement of a trigger that was defective.

The rifle is a Remington Model 600 Mohawk, in a .308 Caliber. It is in very good condition.

I would appreciate a quick response from you if possible. If you are not able to locate it I will have to send a trace through UPS. They suggested I write to you first.

It will soon be hunting season and we will have one very unhappy customer if the gun is not back. I never received a notice from you like I have on other occasion, notifying me that you received the rifle.

If you have any questions please call, 906 428 2625.

Thank You,

Gary T. Kalishek
