Red's Gunsmith Called (907) 344-4867

wanted to say in regards to attached M/700 including Mr. Relm, when the gun came in - it did not have a safety in it.

Called Red 9/4/90 - he stated that when this rifle was brought to him by Bob Rehm, it did not have a safety on it. Rehm told Red that

"SAFETY APPLIED IS INJURY DENIED!"

he had installed an after-market 3-position striker block safety - he called it a right original firing pin & safety lever - Red installed before sending rifle to us. JS.
