Mr. Don G. Chidester
Route 4, Box 29
Troutville, Virginia 24175

Dear Mr. Chidester:

This is in reply to your letter of December 15, and please accept our apologies for the tardy answer.

We regret your unfortunate experience with your Remington Model 660 in 350 Rem. Mag. caliber, as this is certainly not representative of Remington quality.

As you were advised, we do have a recall problem on Remington Model 600 and 660s in certain serial number ranges. Your Model 660, serial number 126845, qualifies for this recall trigger work.

We are including a list of Remington Recommended Gunsmiths qualified to update your Remington Model 660 in the State of Virginia. These gunsmiths will perform the modification on a no charge basis. However, if none of these gunsmiths is convenient for you, please package your Model 660 and send it directly to:

Remington Arms Company, Inc.
Arms Service Div.
Attn: Mr. D.J. Sanita
Ilion, New York 13357

Clearly mark the butt ends of the package to Mr. Sanita's attention and include a note saying you are sending the Model 660 for modification. The repairs will then be performed at our plant on a no charge basis and the gun will be returned directly to your home address.
