

I intend to pursue one of the following options to the limit of the resources available to me.

Option 1- RAC will provide a new Remington 7MM.

Option 2- RAC will pay the replacement value for the 7MM and the .308, and accept return of the Remington 7MM and the Remington .308.

I appreciate what I know are your genuine concerns and intentions, however, this is too serious of a problem. There is absolutely no way that I could ever take this arm afield again. Put yourself in my shoes and a friend or an offspring in my friend's boots- would you? This gun has fired accidentally!

Please indicate at your earliest convenience, your acceptance of either of the options above. My preference is Option 1.

Sincerely,

Richard T. Cole
