Dear Mr. Stekl,

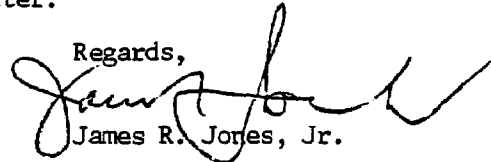

The enclosed Remington 660 is the same rifle I spoke with you about last week. It was purchased about 1969 and has had the factory recall trigger installed by Mr. Bill Dorn in Macon, Georgia. This rifle has accidentally fired once before prior to the trigger installation.

On Saturday, November 15, 1986, this same rifle accidentally fired a second time. On both occasions, the rifle fired upon closing the bolt.

Total damage to the vehicle involved was slightly less than \$500.00

Thank you for your help in this matter.

Regards,
