considerable damage done to it and it was changed to a
for a electromagnet tube and did not receive the same
in the same condition it was for use for 25 years and it
without the side hood and a scratched and marked tube
I expressed in my first letter I held Remington full respon
for the service I have received. I have contacted the Office
Business Bureau and advised them of my problem and they
are willing to help me if cooperation is met with. As a 25
year old boy I will be purchasing other goods in the
future but in order for Remington to remain a good
company in my eyes I expect cooperation that means I
expect either a full refund or an entirely new rifle. Thank
you for your help in this matter.
