Dear Sir:

Our Son's letter is enclosed on outside of gun case. Please note

Not only is Troy upset but both his father and I are upset.

When Troy was 12 yrs. old he took "M.N. Gun Safety" and passed the class with 100% score. He was the only one whose his instructor had

they do that in 20 yrs. of teaching. Therefore, we asked Troy what rifle he wanted for hunting that fall as a gift. He chose this rifle because his father has one just like it. So we looked and found the gun to be in shot supply in the Twin Cities area. So, we put out feelers and found one ^{Your Independent Wholesaler} supposedly on hold at the fleet farm.
