To Whom It May Concern

I sent a letter to you about a Rem 700 ADL I purchased a few years back, actually in 1966. I sent you the letter in 1983 & you advised me to send the gun to you for repairs.

I've been putting this off for years but really like the rifle and am going out of state this year, so I would like to have it fixed. Rem 700 ADL 7mm Rem-UMC. it fires when you pull the safety off occasionally.

Thank You

Anchie Chp
