MESSAGE

Dear Sir,

> Regarding Model 600, SN 87252, Cal. 223 Rem. The customers complaint was that this rifle fires when closing and also pearces primers. We checked the head space and found that the bolt would not close on our go-gage. We spoke to Fred Emhof at the Grand, and he suggested that we send this rifle in to you. Please repair and return when completed.

Thank you.
