Dear Mr. Peaslee:

Thank you very much for your very kind and informative letter. It certainly is gratifying to hear from people who are pleased with something we have done.

Your method of locking the trigger adjusting screw on the XP-100 is certainly practical and effective. I understand, however, that our Research group have already decided to change the system utilizing a mechanical locking system similar to your suggestion.

We certainly do appreciate your interest, and the time you took to bother to write. Under separate cover, we are sending you a Remington belt buckle which we hope you will wear and enjoy.

If we can do anything for you in the future, do not hesitate to let us know.

Sincerely,
