April 23, 1986

Mr. Donald L. Rath
Box 115
Riverside, Iowa 52327

Dear Mr. Rath:

Your letter of April 9, 1986 concerning repair to your Model 700 has been referred to this office for reply.

We checked our files and can find no record of your rifle having been back for repair. We would need your serial number and any correspondence on this subject to check further.

Please provide this information so we can resolve this issue.

Sincerely,

K.D. Green, Manager,
Field & Product Service

*My 243-Model 700 was sent in for repair by
Paynes Gun Repair of Albia, Ia. It went off
when I pushed the safety forward. The safety
pushed very hard and seemed to be hung up on
something. It tore up my thumb which still
bothers me and blew a hole through the seat and
door of my pickup. My body men gave me a bill
of \$240.00 to repair this. Just what was wrong with
this bill?*
