J.A. Stahl
Horn, New York 13357

Dear Mr. Stahl:

Just another note regarding my rifle & myself.

I have been hunting with this arms since I have been 14 years old. (I am now 45). I was in the army infantry for 2 years, been a N.Y.S. Safety instructor for 15 years, and have been on numerous big game hunts. In my total 30 years of handling firearms I have never experienced any problem like I have with this rifle.

The first time it malfunctioned nobody even had worked on it. The last time it fired with the safety, my hand was no near near the trigger.

Here's hoping you find something wrong with it. I still will never hunt it again. I still would like to try another Remington Action.

Thanks,
Sincerely, Frank Ruckl
