METAL			C2			

MAIN FAULT

Unable to duplicate customer concern. However, disassembly of stock assembly revealed that the 23yr. old rifle has been properly maintained. Trigger required, and trigger adjusting screw tampered with outside factory. Trigger pull is set below our factory spec. rifle mfg Oct 1970 Serial # 009		Replace trigger assembly component at 1/2 normal replacement cost, as of good used. Item action.
