MAIN FAULT

Cannot duplicate reported complaint - however, trigger assembly has been adjusted & tested properly, as evidenced by complaint missing from adjustment record - trigger pull measured at 2 3/4 pounds - this is below our minimum spec. During trigger assembly certain a black greasy substance also.

Trigger pull 2 3/4 pounds - near left 1007"

COMMENTS

Offer to clean and re-adjust present trigger assembly, or, we can install a new trigger assembly at a normal cost as a gesture of good will, if this will bring a total confidence in the rifle.
