Dear Sir:

I am the owner of a Remington 270 Rifle, Model 700,  
Serial No. 6524685.

My said rifle has always had a very, very sensitive  
"hair trigger" and with the mere touching of the trigger  
the said rifle goes off, and sometimes when I have  
unloaded the rifle it has fired without the touching of  
the trigger.

I respectfully ask that you replace my rifle with  
another Remington 270 Rifle and that you pay for the  
expense of mounting the scope on the rifle that will  
replace the rifle that I have.

Thank you.

Respectfully yours,

Rodolfo R. Flores
