Please describe your problem: ~~SOME~~ TIMES when closing bolt gun will discharge, I've had a gunsmith work on it, because for a while it would discharge. Every time the bolt was closed but now just once in a while. I had it worked on about 12 yrs ago but after it still went off, so I retired it because I was afraid of killing someone. I didn't get a recall notice in 1979, didn't see or know about it till read in American Hunter.
