

Remington Fire Arms  
14 Hoefler Ave.  
Iliol, NY 13357

Attn: Ray Egland

I am writing in regard to a miss fire with my rifle. I was pushing the safety forward and the rifle miss fired. I was using pyrodex 120 grain pellets. The bullet was a powerbelt .54 caliber. The rifle was fired one time with this set-up. The next load was when the miss fire took place. The spring is enclosed inside the rifle box but packaged separately.

I can be reached by cell phone 765-617-4777 or my work number is 765-724-2225.

Thank you,

*Ben Kennedy*
