Please describe your problem: Rifle <sup>Fires</sup> when I take the safety off without pulling trigger (Happened 3 times once Ripped Thumb open). Rifle will not cock some times when I work the action. I had one Hang Fire that cost me a Eight point Buck. Trigger Pull & Travel are at what I like!! IF You Have to adjust them to fix my problem make Trigger Pull as Light as Safety Permits with no Trigger Travel.

I DO NOT Think There Should Be any Charges! Problem Started Right out of Box! Problem is the same as Seen on TV and Read about!
