

Dear Remington Arms,

71130

My Hunting Buddy has Died! I mean my Model 721 Rifle,
I've Had Him Since 1975. He's Been Through Thick & Thin in my
28 years of Hunting ~~with him~~. In 1975 I Redid The Stock and
He got Me A 14 Point 255 lb Buck, That's When I Knew It was
going to Be A really good relationship. In the yearspast we've
taken 34 other Bucks + numerous Doe in Several States. we've
taken 4 moose + 9 Caribu. I replaced the Barrel in 1995, as
the Original one WAS All shot out, (So my Gunsmith said)
My Problem Has Been ~~On~~ with the Safety + Trigger. Sometimes
when you Close the Bolt The Firing pin would release,
This Being A Very Dangerous Problem. I've Had other gun
Smiths Adjust The Trigger + After 30-40 rounds it
Loosens up + Fires Again when I close the Bolt, I've Been
Told That I should Hang him on the wall + Buy A new one. I'm
only 46 And I would like to Hunt Another 20-30 years with
my old Friend. So my First Question is, CAN you give him A new
Heart (Trigger Assembly), if So, my Second Question is, CAN you
give Him A new Body, (A ^{Brown} LAMINATE Mountain like Stock) AS
His Has Been Broken + Repaired Several Times. Hunting without
my Buddy Just wouldn't Be the Same. CAN you Help me
enjoy my next 30 years of Hunting. my NAME is Lonney Swett
And I'm From MAINE. you CAN FAX Me with your Answer AT
207-778-5505 or my Address is Lonney Swett
Special Thanks From my Buddy + I!! P.O. Box 15 137 Swett Road
