11/3/10 Per email sent to Remington.com, incident # 101028-000061, "I recently purchased a Remington 700 CDL (left hand) in 30-06 from Cabela's. During my first trip to the range, I experienced what I have heard described as a "slam fire." Essentially, the rifle fired when I was closed the bolt when neither of my hands was near the trigger nor the trigger guard. Please let me know how I can send the rifle back to Remington to have it examined and repaired. I want to ensure that this never happens again."cm

Mr. Wert, I apologize for the delay in responding. I will email a prepaid UPS ground shipping label to you in the next 24-48 hours. Please print it and tape it to your rifle box. Take it to a UPS terminal or UPS driver and shipping is paid. I will also email a letter with my contact information. Please print a copy and insert it inside the rifle box before shipping. We will inspect the rifle at no charge and contact you with the results and how we can resolve.

If you would like to contact me directly, following is my direct information.

Thank you again for your patience.

Christy Mitchell

I recently purchased a Remington 700 CDL (left hand) in 30-06 from Cabela's. During my first trip to the range, I experienced what I have heard described as a "slam fire." Essentially, the rifle fired when I was closed the bolt when neither of my hands was near the trigger nor the trigger guard. Please let me know how can send the rifle back to Remington to have it examined and repaired. I want to ensure that this never happens again.

I own and enjoy other Remington firearms and trust that the company will help me resolve this problem. Thank you for your prompt response.

Eric Wert
