Dear Mr. Slagle,

Enclosed is a prepaid UPS shipping label to cover shipment of your firearm to our factory for examination and a form to fill out.

Please include a copy of this letter and form to put inside the shipping container. The letter and form inside is important as sometimes the outside label gets damaged in transit and we want to be sure the firearm is logged in correctly. Mark the ends of the box with "Product Service". Product Service will be inspecting the firearm and will contact me with the results.

I hope that this action will keep you a loyal Remington customer.

Sincerely,
D. Fulcher

Dear Mr. Slagle,

We would like to have the firearm come into our Product Services Department at our factory for examination. Please reply back to me with the serial number of the firearm. We would like to send you a pre-paid shipping label for UPS to have the firearm come in. I will also include a form that you can fill out to let the examiner know exactly what happened, and when this occurred.

Sincerely,

Deil

Hello,

I have a 700 243 BDL varmint rifle. I bought it new about 30 years ago.

I have shot a truck load of ground hogs with it. However, I can not use it anymore because it fires as soon as I release the safety. I would like to be

able to shoot it again, but I can not trust that it will not discharge and kill someone. What can I do to get it fixed. I emailed you before and have not received a reply.

Thanks for your help in advance
