Hello, I have thought hard about sending the 700. I do not know how other people feel but this is a real nice gun and we know there is a problem with the 700, too many cases have been filed. I will not send the gun and not know how it is treated, too many years of care has been taken for someone to burn the barrel off of it testing it. I only want the repair, there are all kinds of guns out there for sale you can buy and test. I am very dissapointed that remington will not take care of their obligation to the people who made them the success they are today. Paul E. Batten

Dear Mr. Batten,

**You will receive a pre-paid shipping label in a separate email within 24-48 hours. Please include a copy of this letter to put inside the shipping container. The letter inside is important as sometimes the outside label gets damaged in transit and we want to be sure the firearm is logged in correctly. Mark the ends of the box with "Product Service".** Product Service will be inspecting the firearm and will contact me with the results.

I hope that this action will keep you a loyal Remington customer.

Sincerely,  
D. Fulcher
