3/29/12 Per call from Ridgeway, this is the 2nd 770 he has had that has fired when the safety was released. He was at the range with this one, pointed down range when it fired. He has shot it since and it has happened again. He has read on the web about this being a safety problem with this model and he wants a new style trigger. He gave the previous rifle away and it was never sent for inspection.cm
