COPY

Ref # 9604, Model 700, Serial # RR23002B

Enclosed is a prepaid UPS shipping label to cover shipment of your firearm to our factory for examination. A box will arrive separately.

Please include a copy of this letter and service request to put inside the shipping container. The letter and service request inside are important as sometimes the outside label gets damaged in transit and we want to be sure the firearm is logged in correctly. Mark the ends of the box with "Product Service". Product Service will be inspecting the firearm.

I hope that this action will keep you a loyal Remington customer.

Sincerely,
J.B. Irving

Irving,

I am sorry the 91605 is my work zip code, my correct home zip code is 91351 otherwise the address I gave is correct. Phone number is: cell (818) 383-4632 and work is (818) 982.1464. If you call at work just ask for Russ. I assume you got my serial number in the E-Mail last night...if memory serves it was RR23002B. Memory does not always serve me well so I hope you got the note last night.

Russ

Russ,

Please confirm your address. Zip code 91605 is coming up as North Hollywood, CA. Also, we need your phone number in case we need to call you. We always recommend removing any accessory items such as scopes or slings and etc. I would be happy to send you a box for shipping.

On Dec 4, 2013 2:00 PM, "Russ Millhoan" <rgmilhoan@gmail.com> wrote:

OK, give me till tonight to get the serial number to you and I will send it in. Do I take off the scope and bipod? (I would prefer to keep the scope on since I have dialed it in very precisely). I have a pelican style gun case that would be very secure do you think I should send it in my case? I does pack well in my gun case with the scope. Let me know what you prefer.

Russ,

If you are having an issue, we would like to get it in for examination. I cannot comment on having work done outside of Remington.

Thank you very much Jesse, but I would like to consider another option if you think it would be OK. I am told by someone I trust very much that this trigger is likely an adjustable trigger since the gun is less than a year old. Although I have never tried to adjust the trigger (and would never attempt to), I wondered if the gun shop did adjust it before I picked it up. Would it be OK to have it looked at by a gunsmith to check the adjustment? What do you think? I will have to look up the serial number when I get home but the caliber is .308 and mailing address and phone number are below. Do let me know about checking the adjustment with a gunsmith before sending the prepaid box...I would like to take care of this in the simplest way and I don't know if I could bear parting with my baby.

Russ,

We would like to have the firearm come into our Product Services Department at our factory for examination. Please reply back to me with the serial number of the firearm, caliber, your mailing address and phone number. We would like to send you a pre-paid shipping label for UPS to have the firearm come in. I will also include a form that you can fill out to let the examiner know exactly what happened and when this occurred.

Sincerely,

J.B.

Subject: RE: Remington 700

Thank you for your response. I have another question for you about an accidental fire. Two days after sending my last question was Thanksgiving day and we went to the range as I have done many times and when I clicked the safety off....the gun fired. Thankfully it was pointed down range and in a direction I intended to shoot. It is less than a year old and had less than 1000 rounds through it so it has no excessive wear. It is also not a maintenance issue since I always clean my gun between every use. Can you give me some help with this? Perhaps there is a part of the gun that needs special cleaning I may have missed or a particular method of use of the safety I need to know; just grasping at straws here any information would be much appreciated.

Mr. Milhoan,

As far as converting your Model 700 you will need to purchase the aftermarket conversion kit that is offered through Brownell's. What you have listed below is not what it takes for the conversion.

In regards to your question about the ammo, we will need to suggest that you contact Federal since it seems the problem lies with the ammo not the firearm.

Thanks for contacting us and we look forward to the opportunity to serve you again in the future!

From: Russ Millhoan [<mailto:rgmilhoan@gmail.com>]
Sent: Tuesday, November 26, 2013 8:26 PM

Subject: Remington 700

Dear Sirs,

I have a question about the magazine clip you sell for the Remington model 700. I have found the parts below that I think are needed to convert my model 700 .308 to a magazine...is that all that is needed and can I acquire a larger than 4 round clip?

Model 700 308/6mm Magazine Box S/A ADL Blued (F15283)

Remington Model 700 BDL Short Action Magazine Box - Blued (19645)

One more question...my model 700 is a few months old and seems to fire my reloads just fine but when I switch to Federal American Eagle each shot has the brass lodge in the chamber and I have to put a dowel down the barrel and tap it in order to be able to eject the spent round. Can you tell me why this happens? Is it because it is new and needs to be broken in or adjusted or anything else?

Thank you,

Russ Milhoan
