CARMEN J. DELDEO, JR.

Dear Mr. Santa.

Please find
enclosed my
22.250. I did
not clean it
as you directed.

Thank you for
your assistance

Sincerely,

Carmen J. Deldeo, Jr.

Mr. Jay M. Bunting, Jr.
Remington Arms Co., Inc.
870 Remington Drive
P.O. Box 700
Madison, North Carolina 27025-0700

Dear Jay:

Have not seen you since your induction in the Indian River Hall of Fame. I hope you and your family are doing well. Gladys and Jay tell me you bagged an impressive Alaskan moose. Congratulations!

I need your assistance. As you know I have a large selection of Remington firearms. One of them includes a Remington Model 700 Bolt Action Five shot .22-250 serial number 289707. Remington Arms Co. Inc. Ilion, N.Y. made in U.S.A. PAT. NO. 2,473,373 2,514,981 2,585,195.

I have a 3 X 9 variable scope on her and I can hit a quarter at 100 yards. I really enjoy this rifle.

A few weeks ago, when I was loading the rifle, it went off and shot a hole in my truck seat and door. Luckily no one was injured or killed. I placed four rounds in the magazine and was using the bolt to insert the one for the chamber. The sun had not come up yet so I was using the car door light to see what I was doing. When I closed the bolt the shell in the chamber went off. The firing pin struck the shell. I worked the bolt without ammunition in the gun and the firing pin did not fire again.

Is this a common occurrence or failing of this model? Did I do something incorrect to cause the discharge? Is there a place that I can send the gun to have it checked or fixed so that this never occurs again?

Please let me know what you think my best course of action is with this rifle.

You can reach me at this address or by telephone (302) 436-1000 ext. 141 (work) (302) 732-9405 (home). Your assistance as always will be greatly appreciated.

Sincerely,

Carmen J. Deldeo, Jr.
