Model 700 Remington BDL

DEAR Fred SUPRY

I spoke with you over the phone on the 18th.
This rifle has went off by itself just by
switching the SAFETY to FIRE. And on a previous
incident it would let the firing pin fall every
time you shot bolt. It kept opening and shutting
the bolt and finally it straightened out. I am
completely AFRAID of this gun now, last time
when the gun went off it was in my truck
CAB. It blowed a hole in my CARPET,
firewall, and into my motor. This cost
me about \$1,700.00 to REPAIR.

I have never messed with the TRIGGER
OR ANY PART of the ACTION, BUT I did
purchase this gun used. If you have
any questions about the gun OR ANY thing
else please call me.

Thank you

Mike Matlock

Also you ask me to remind you,
you said you could get me a nicer stock
than one of your test guns possibly. I'd
so that would be great. Thank you.

THANKS AGAIN

Mike Matlock
