Remington® Press Release

Remington Introduces A New High-Powered, Magnum Bolt Action Rifle – the Model 673™ Guide Rifle

Madison, NC – Recognized in the mid 1960s by guides as a highly prized back-up gun for big game hunters, the Remington®-Model 600 Magnum and its descendants, the Model 660 and Mohawk 600, have been absent from the Remington line-up for over 20 years. Remington is pleased to announce a modern day version of this classic – the **Model 673 Guide Rifle**.

Based on the Model Seven action, the **Model 673 Guide Rifle** is available in the extremely efficient and new to the market .300 Remington Short Action Ultra Magnum and the reintroduced, hard-hitting .350 Remington Magnum. Partnered with the Remington Premier® and Express® lines of ammunition, the **Model 673 Guide Rifle** delivers plenty of punch in an efficient, easy handling rifle.

Complimenting the performance of the **Model 673 Guide Rifle** is its distinguished look, featuring a wide striped, weather resistant, laminated Monte Carlo-style stock of alternating dark and light veneers with deep cut checkering and swivel studs. The 22-inch magnum contour barrel has a distinct, machined steel ventilated rib with iron sights, reminiscent of the Model 600, allowing for quick sight acquisition. The receiver is drilled and tapped for scope mounts. The blind magazine has a 3 + 1 round capacity with hinged floor plate.

With today's interest in high performance short action cartridges, compact and swift-handling rifles and the resurgence of classic-styled firearms, the **Model 673 Guide Rifle** fits the bill. Available at a suggested retail of \$825.

Model	673 Guide Rifle
Action	Bolt/Short

Remington® Model 700™ Rifles Take Short Action Ultra Mag Performance to the Next Level

Madison, NC – Remington is proud to introduce the first short action Model 700 magnum rifles - the **Model 700 BDL™ SS** and **Model 700 Sendero® SF** in .300 Remington Short Action Ultra Mag and 7mm Remington Short Action Ultra Mag. Introduced in 2001, these highly efficient cartridges bring true magnum power to the short action platform. Now Remington is matching the strength and accuracy of the Model 700 design with our Premier® Short Action Ultra Mag offerings.

The **Model 700 BDL SS** (Stainless Synthetic) offers all of the reliable design features of the Model 700 BDL housed in a rugged, all weather black synthetic stock complete with swivel studs. The short action receiver and clean 24-inch magnum contour barrel are constructed of 416 stainless steel with a satin finish. The hinged floor plate magazine has a 3 + 1 round capacity and the receiver is drilled and tapped for scope mounts. Suggested retail: \$775.

At the top of the class of premier long range, short action magnum rifles is the **Model 700 Sendero SF** (Stainless Fluted). Features include a 416 stainless action, bedded in a hand laid-up composite stock reinforced with aramid fiber, swivel studs and a 26-inch free-floated, 416 stainless steel barrel with longitudinal fluting for added rigidity and heat dissipation. The hinged floor plate magazine has a 3 + 1 round capacity and the receiver is drilled and tapped for scope mounts. Suggested retail: \$1016.

Pairing the revolutionary performance of the .300 Remington Short Action Ultra Mag and 7mm Remington Short Action Ultra Mag cartridges with the time-proven, out-of-the-box accuracy of the Model 700 will set a new standard for magnum rifles.

Remington Announces Third Annual Rocky Mountain Elk Foundation Rifle

Madison, NC – Remington is pleased to continue their partnership with the Rocky Mountain Elk Foundation with the announcement of a third commemorative **Model 700™ BDL™ SS RMEF Camo** rifle chambered in .300 Remington Short Action Ultra Mag.

The **Model 700 BDL SS RMEF Camo** rifle has a weather resistant synthetic stock, fully covered in the Realtree® Hardwoods® Gray HD™ pattern, the official camouflage of the Rocky Mountain Elk Foundation, and features a laser-etched RMEF logo on the right side of the stock. The legendary design features of the Model 700 BDL SS include a 416 stainless steel short action receiver and clean 24-inch magnum contour barrel, hinged floor plate with 3 + 1 round magazine capacity and receiver drilled and tapped for scope mounts.

Chambering this durable and reliable Model 700 bolt-action rifle with the unprecedented performance of the .300 Remington Short Action (SA) Ultra Mag is a natural choice for the rugged conditions associated with elk hunting. Introduced in 2001, the .300 Remington SA Ultra Mag cartridge delivers unparalleled accuracy and performance, previously only found in long action calibers.

The third annual **Model 700 BDL SS RMEF Camo** rifle will be available for one year only at a suggested retail price of \$835. Included with each rifle is a free RMEF membership, courtesy of Remington, and a portion of the sales of this special limited edition rifle will be donated to the Elk Foundation to support their efforts of ensuring the future of elk, other wildlife and their habitat.

23rd Edition of the Remington® Model 700™ Classic Chambered in .300 Savage

Madison, NC – Continuing the Limited Edition Classic series, the **Model 700 Classic** for 2003 is chambered for a timeless cartridge, the .300 Savage. Still the choice of many deer and big game hunters, the .300 Savage dates back to 1920 and has been offered in a long list of Remington rifles including the Model 81 autoloader, Model 760 pump action and the Model 722 bolt action.

The **Model 700 Classic** is a bolt-action rifle that features a traditional American walnut, straight-combed stock with the "classic" look of a low-gloss, satin finish and crisp-cut checkering. Adding to the distinguished appearance of this Model 700 is the clean 24-inch high polished, blued carbon steel barrel and receiver. The hinged floor plate magazine has a capacity of four plus one in the chamber. Complete with swivel studs, the **Model 700 Classic** is an elegant addition to any collection or ready to take afield.

Available for only one year, the 2003 Model 700 Classic joins a list of worthy predecessors:

1981	7mm Mauser (7 x 57 mm)	1992	.220 Swift
1982	.257 Roberts	1993	.222 Remington
1983	.300 H&H Magnum	1994	6.5 x 55mm Swedish
1984	.250-3000 Savage	1995	.300 Win. Magnum
1985	.350 Remington Magnum	1996	.375 H&H Magnum
1986	.264 Win. Magnum	1997	.280 Remington
1987	.338 Win. Magnum	1998	8mm Remington Magnum
1988	.35 Whelen	1999	.17 Remington
1989	.300 Wby. Mag.	2000	.223 Remington
1990	.25-06 Remington	2001	7mm-08 Remington
1991	7mm Wby. Mag.	2002	.221 Remington Fireball

Partnered with either of the two offerings in our Remington Express® Core-Lokt™ line, a 150-grain pointed soft point or 180-grain soft point bullet, the 2003 **Model 700 Classic** is the unmistakable choice for deer and most American big game. Available at a suggested retail price of \$683.

Remington® Introduces "All Weather" Version of the Model 7400™

Madison, NC – Remington's fast-handling, soft recoiling, autoloading centerfire rifle, the Model 7400, now delivers its hallmark accuracy in an all weather package – the **Model 7400 Weathermaster™**.

The **Model 7400 Weathermaster** has a durable, weather resistant black synthetic stock and fore-end and matte nickel plated receiver, barrel and magazine to provide protection from inclement conditions. The 22-inch barrel with iron sights is ideal in any hunting situation. The receiver is drilled and tapped for scope mounts. For 2003, the **Model 7400 Weathermaster** will be chambered in two widely popular calibers - .30-06 and .270 Win.

Long a favorite of deer hunters, the Model 7400 autoloading centerfire rifle is designed for quick follow-up shots and fast target acquisition due to the soft-recoiling, gas system. The Model 7400 gas system maintains uniform bolt velocities to improve reliability and long-term durability. The quick release, four round magazine is designed to further enhance the Model 7400 rifle's versatility.

Whatever the hunting conditions, Remington delivers the answer with the accurate, fast-handling **Model 7400 Weathermaster**. Available at a suggested retail of \$624.

Highly Popular Model 597™ Autoloader Offered in .17 HMR

Madison, NC – Following on the extremely successful mid-year introduction of the .17 Hornady Magnum Rimfire in the Model 597 LS, Remington is pleased to announce a new version for 2003 – the **Model 597 Magnum Synthetic**. Now target shooters and small game hunters can shoot the perfect combination of the advanced design of the Model 597 autoloader and the newly introduced Remington® Premier® .17 HMR ammunition.

The family of Model 597 rifles, when introduced in 1997, revolutionized rimfire technology with an innovative bolt guidance system, featuring a unique set of twin tool-steel guide rails. This design results in better stability, feeding reliability and superior accuracy. And for smooth, dependable operation, the bolt, hammer and sear are coated with a Teflon®/nickel plating.

Model 597 Magnum rimfire rifles feature a dual-stacked eight round capacity, die cast metal magazine with a last shot "hold open" design. This newly designed, lightweight Magnesium-based alloy metal magnum magazine clip will also be offered in the Remington accessories line for 2003. The receiver is drilled and tapped for scope mounts and the Model 597 Magnum comes with a Weaver-style scope rail.

The **Model 597 Magnum Synthetic** will prove to be one of the most popular offerings in the Model 597 line. Featuring a sturdy, matte black synthetic stock with swivel studs and 20-inch sporter contour barrel with satin blued finish, this autoloading rimfire is designed for the rigors of high-volume shooting. The clean barrel is button rifled with a twist rate of one turn in 9 inches with six lands and grooves. Suggested retail: \$361.

Remington Announces the Return of a Classic Field Shotgun - the Model 1100™ in 16 Gauge

Madison, NC - Following the successful reintroduction of the Model 870™ in 16 gauge, Remington is proud to announce the return of the **Model 1100 Classic Field** and the **Model 1100 Synthetic Field** in 16 gauge, the only autoloader currently produced in this versatile gauge. These traditional, low-recoiling autoloading shotguns offer the same precision as our target grade shotguns in a practical, easy-handling field gun.

The **Model 1100 Classic Field** autoloader has a satin-finished, American Walnut classic styled stock and fore-end and is available with a 26-inch or 28-inch vent rib, Rem™ Choke light contour barrel. The non-embellished receiver and barrel have a traditional polished blue finish. This 16 gauge version of the Model 1100 offers the sleek appearance and style of a time-honored classic with the utility features that upland hunters demand in a field gun. Suggested retail: \$765.

Sure to be a favorite with the recreational shooter and hunter, the **Model 1100 Synthetic Field** features a weather resistant, black matte synthetic stock and fore-end and the non-embellished receiver has a matte black finish. The 28-inch vent rib, Rem Choke barrel has a matte black, non-reflective finish making this version a durable workhorse with the classic handling and low-recoiling features of the best-selling autoloader of all time. Suggested retail: \$549.

New Model 1100™ Competition Master Enters the World of Practical Shooting

Madison, NC – With the growth of 3-Gun Matches in Practical Shooting, Remington is pleased to announce a factory built, competition-ready, 12 gauge autoloading shotgun, the **Model 1100 Competition Master**. Built on the legendary Model 1100 platform and designed for high-speed shotgunning, this competition shotgun is "ready-to-rock" the world of Practical Shooting.

This fast handling, well-balanced Model 1100 features a matte gray synthetic stock and fore-end, matte black finish on receiver and barrel and the new R3™ Recoil Pad, designed by Sims Vibration Laboratory, provides for ultimate recoil absorption and ease of gun mounting. Forget after market accessories, the **Model 1100 Competition Master** comes complete with a magazine extension tube (capable of handling eight 2 3/4-inch shells in the magazine tube and one in the chamber), a receiver-mountable ammo carrier for seven extra shells and sling swivel studs. With an all new carrier release button designed for speed and the extra large operating handle, reloading is quick. Fiber optic front sight and steel mid bead sight top the 22-inch vent rib barrel, providing rapid target acquisition.

When speed, power and accuracy are needed to win the match, this reliable autoloader is the "practical" choice for the serious competitive shooter. The **Model 1100 Competition Master** will be available at a suggested retail price of \$932.

Skeet Version Added to Remington® Model 1100™ Sporting Line

Madison, NC – A long-standing favorite on the range and in the field, the soft-recoiling Model 1100 autoloader is now available in a 12 gauge version designed for the challenges of the skeet field – the **Model 1100 Tournament Skeet**. This competitive shotgun combines the elegant look of our sporting-grade line with the dependable "hall of fame" performance of our best-selling autoloader.

The **Model 1100 Tournament Skeet** has a semi-fancy American walnut stock and fore-end with an attractive high gloss finish and distinct cut-checkering. The receiver is roll-marked with "Tournament Skeet" and both receiver and barrel have a polished blue finish. Completing the classic look is a gold-plated trigger. The 26-inch light contour, vent rib barrel features twin bead sights and is supplied with Extended Target Choke Tubes (Skeet and Improved Cylinder).

Remington's rich tradition of building quality shotguns combined with the long history of skeet records set with the Model 1100 makes this new offering a "no-miss" choice. The **Model 1100 Tournament Skeet** is available at a suggested retail price of \$868.

Remington® Commemorative Model 11-87™ Premier® to Honor Dale Earnhardt

Madison, NC – In recognition of Winston Cup Champion, Dale Earnhardt, Remington is pleased to announce the **Model 11-87 Dale Earnhardt Tribute** shotgun. An avid hunter and long-time friend of Remington, Earnhardt's love of the shooting sports and his achievements in the world of NASCAR racing are captured on this special edition Model 11-87 Premier. As a gesture of respect, Remington will donate a portion of each sale generated from this shotgun to the Dale Earnhardt Foundation.

This 12 gauge, autoloading Model 11-87 Premier features a 28-inch, light contour Rem™ Choke vent rib barrel and American walnut stock and fore-end with high gloss finish and cut checkering. Engraved on the polished blue, highly embellished receiver is Earnhardt's likeness, his signature and scrollwork on the left side with a "7 Time Winston Cup Champion" tributary banner on the right side. The signature and banner are inlaid in 24 karat gold. Serial numbers on this commemorative Model 11-87 will start with "DE3".

"I was very impressed with the sincerity and commitment of Dale; his respect and love for hunting, its tradition, and his commitment to preserve it," commented Tommy Millner, President and CEO, Remington Arms Company, Inc. "Remington is proud to honor our friend and a true outdoorsman with this tribute Model 11-87.

The **Model 11-87 Dale Earnhardt Tribute** shotgun will be available at a suggested retail of \$972.

Remington Offers 20 gauge Model 870™ Turkey Shotgun

Madison, NC – With the impressive performance of the newer 20 gauge magnum turkey loads, Remington now offers hunters the choice of a lower-recoiling, 20 gauge, 3-inch magnum shotgun – the **Model 870 SPS-T™ Camo Shotgun**. Combining the reliability of the time-honored Model 870 action with the durable features of our Special Purpose shotguns, makes this pump action the ideal choice for the demands of turkey hunting.

The **Model 870 SPS-T** (Special Purpose Synthetic-Turkey) **Camo** shotgun features a weather-defying, synthetic stock and fore-end that is fully camouflaged with Mossy Oak's New Break-Up® pattern. This lightweight 20 gauge pump action is capable of handling 3-inch magnum shotshells and has a 20-inch vent rib, Rem™ Choke barrel with Full choke included. Fit with the new R3™ Recoil Pad, designed by Sims Vibration Laboratory, the felt recoil of this lightweight Model 870 is significantly reduced. The camouflaged barrel is equipped with TruGlo™ light-gathering, fiber-optic rifle sights for ease of target alignment. Completing the package is a camouflaged, Cordura® nylon sling, swivels and studs.

The perfect combination in the turkey woods this year will be the **Model 870 SPS-T Camo** and the new 20 gauge **Remington® Premier® HEVI-SHOT® Magnum Turkey Loads**. The Model 870 SPS-T Camo 20 gauge shotgun will be available at a suggested retail price of \$ 595.

Model 870™ Express® and Model 1100™ Youth Turkey Guns to Feature Skyline Excel™ Camo Pattern

Madison, NC - Remington has selected a versatile, high resolution camo pattern, Skyline Excel, for all camouflaged versions of the venerable **Model 870 Express** and the **Model 1100 Youth Turkey** shotguns, beginning in the Spring of 2003. Skyline Excel is a multi-functional camouflage pattern, combining twelve colors with four separate layers of vegetation. With its three-dimensional design that incorporates shades of brown, green and gray, the Excel pattern is effective in a wide range of environments.

Four models will be available including two Youth versions in 20 gauge, providing turkey hunters of all ages with a wide range of options.

Model 870™ Express Super Magnum™ Turkey Full Camo - This 12-gauge, 3 1/2-inch shotgun features fully camouflaged, synthetic stock and fore-end, receiver and barrel. The 23-inch Rem™ Choke vent rib barrel comes with our Turkey Extra Full Choke. Capable of handling 3 1/2-inch, 3-inch magnum and 2 3/4-inch shotshells interchangeably, this pump action shotgun offers versatility for a wide range of turkey hunting situations. Suggested retail: \$500.

Model 870™ Express Turkey Camo - With durable synthetic, fully camouflaged stock and fore-end, this 12-gauge pump action shotgun is ready for the harsh weather and environment so often associated with turkey hunting. The 21-inch Rem Choke vent rib barrel has a non-reflective, black matte finish and is supplied with our Turkey Extra Full Choke. Suggested retail: \$399.

Model 870™ Express Youth Turkey Camo - With all of the great features of our standard Model 870 Express turkey gun, this version features a stock one-inch shorter and 21-inch vent rib barrel providing proper fit for youth or smaller stature hunters. Available in the lower recoiling 20-gauge, this pump action comes with our Full Rem Choke and is capable of handling 3-inch magnum shotshells for added knockdown power. Suggested retail: \$399.

Model 1100™ Magnum Synthetic Youth Turkey Camo - With the low recoil feature of our best-selling autoloader, this 20-gauge, 3-inch magnum shotgun is the ideal choice for youth, women or the hunter who has trouble finding a firearm to fit. The synthetic stock and fore-end are fully camouflaged and a non-reflective, matte black finish covers all metal parts. The shorter stock (one-inch shorter than our standard Model 1100) and 21-inch vent rib barrel provide balance and ease of handling. A Full Rem Choke tube is included. Suggested retail: \$612.

Remington® Premier® Core-Lokt® Ultra In A Class Of Its Own

Madison, NC – Following a tremendously successful 2001 introduction, the bonded **Remington Core-Lokt Ultra** bullet has established itself as a world class, high performance centerfire rifle hunting bullet. Premier Core-Lokt Ultra offers hunters the unique combination of excellent accuracy, superb weight retention and expansion with overall superior terminal results. These features combine to position Premier Core-Lokt Ultra as best-in-class.

For 2003, the Remington Premier Core-Lokt Ultra ammunition line has been expanded to include four new offerings including 243 Win. 100 grain, 7mm Remington Magnum 160 grain, 30-06 Spfd 150 grain and 308 Win. 150 grain.

Premier Core-Lokt Ultra high-performance ammunition features a bonded hunting bullet comprised of a lead core that is metallurgically adhered to a progressively tapered 20 percent heavier jacket delivering controlled expansion over a wide range of velocities. Its increased Core-Lokt section provides controlled 1.8X expansion with deep penetration and 85% weight retention. Remington Core-Lokt Ultra features all the qualities of a true high performance hunting bullet, while providing outstanding minute of angle accuracy previously unheard of in a bonded bullet.

Offerings for 2003 are as follows:

Remington® Premier® Core-Lokt® Ultra Centerfire Rifle Cartridges

	Cartridge	Bullet Wt.	Bullet Style
NEW	243 Win	100 grain	PSP, Core-Lokt Ultra
	270 Win	140 grain	PSP, Core-Lokt Ultra

Remington® Unveils Attached-Sabot Lead Slug

Madison, NC -- For 2003, Remington proudly introduces the Express® BuckHammer™ Attached-Sabot Lead Slug. This new shotgun slug combines devastating knockdown power with the improved accuracy of an attached sabot-style projectile. When used in conjunction with a fully rifled barrel, the Remington Express BuckHammer slug delivers 3" or better groups at 100 yards with 13% more energy than any other lead sabot slug on the market. The Remington patented sabot slug system with the unique 1 1/4 ounce lead slug delivers outstanding accuracy, near 100% weight retention and controlled expansion to nearly 1 inch in diameter.

The Express BuckHammer joins a complete family of five different slug offerings from Remington.

- **Premier® Core-Lokt® Ultra** --- The ultimate in jacketed, bonded sabot slugs for the most demanding applications.
- **Premier® Copper Solid™** --- An all-copper high performance sabot slug
- **Express® BuckHammer™** -- A lead sabot slug that delivers devastating on game performance and extreme accuracy.
- **Slugger® High Velocity** --- For greater down range energy and flatter trajectory.
- **Slugger®** --- A traditional "Foster" style lead slug preferred by smoothbore shooters.

Offerings for 2003:

	Gauge	Shell Length	Wt. Slug	Muzzle Velocity
New	12 ga.	2 3/4"	1 1/4 oz.	1550 fps Muzzle Velocity

**Remington® Announces Premier® AccuTip™
Rifle Ammunition – Unsurpassed Accuracy,
Super-Flat Trajectory and Deadly Down-Range
Terminal Performance**

Madison, NC – Remington Premier AccuTip ammunition features a precision engineered polymer tip bullet that is designed for extreme accuracy; sub minute-of-angle at 100 yards. The polymer tip and secant ogive nose profile produce an extremely high ballistic coefficient that flattens trajectory and preserves down range energy. The copper jacket is specifically constructed, under a proprietary manufacturing process to deliver more controlled expansion and improved weight retention than other tipped hunting bullets.

The Premier AccuTip bullet hits the mark with match grade precision and extremely flat trajectory. These performance characteristics, coupled with the superior down-range energy, make it a perfect choice for medium-size big game such as whitetail, mule deer and antelope.

Remington Premier AccuTip ammunition is offered in most of today's most popular calibers and grain weights.

Remington® Premier® AccuTip™ offering for 2003:

Caliber	Bullet Weight.
243 Win	95 grain
260 Remington	120 grain
270 Win	130 grain
7mm Remington Magnum	150 grain
30-06 Springfield	150 grain
30-06 Springfield	165 grain
300 Win Mag	180 grain
308 Win	165 grain

Remington® Adds America's Hottest New Rimfire Cartridge To Its 2003 Line-Up

Madison, NC – The 17 Hornady Magnum Rimfire is taking the rimfire world by storm. Not since the introduction of the 22 WMR over forty years ago has the rimfire community expressed such excitement and interest generated by a new product.

New for 2003, Remington Premier® 17 Hornady Magnum Rimfire ammunition will be offered in an explosive 17 grain V-Max™ bullet with a sizzling muzzle velocity of 2550 fps. This new offering is the fastest and flattest shooting rimfire offering available, eclipsing the 22 Win Mag by over 500 fps in velocity.

The famous V-Max bullet is a super accurate polymer tipped bullet designed for explosive on-game performance. Whether used for target shooting or high-volume varmint hunting, the Premier 17 Hornady Magnum Rimfire will impress you with its lightning speed and unbelievable accuracy, all in a rimfire cartridge.

Remington® Expands the Core-Lokt® Ultra Bonded Slug Family

Madison, NC – The accuracy, down range ballistics and proprietary bonding process of **Premier Core-Lokt Ultra Bonded Slug** results in the most deadly high performance shotgun slug in the industry.

New for 2003, to complement the successful 12 gauge offering, Remington is providing a 260 grain, 20 gauge version for those who prefer the low recoil of a smaller gauge slug. The Remington Premier Core-Lokt Ultra Bonded Slug will surely become the new small gauge standard in shotgun sabot slugs.

The sleek ogive design generates some of the highest down range velocities and retained energy achievable in fully rifled barrels while providing flatter trajectories than other shotgun slugs. The bonded, jacketed slug and patented spiral nose cuts create consistent 2X expansion over a wide range of velocities with superior weight retention.

Offerings for 2003 are as follows:

Remington® Premier® Core-Lokt® Ultra Slug

	Gauge	Shell Length	Wt. Slug	Muzzle Velocity	Muzzle Energy
	12 ga.	2 3/4"	385 gr.	1900 fps Muzzle Velocity	3086 ft-lbs. Muzzle Energy

The Remington® Slugger® Goes High-Velocity

Madison, NC -- New for 2003, the Remington Slugger rifled shotgun slug is now offered in a High-Velocity $\frac{7}{8}$ ounce version boasting a 1800 fps muzzle velocity. The **Remington Slugger High-Velocity** offers smooth bore shooters a lead slug exhibiting flatter trajectory and increased down range energy for hard-hitting deer-dropping performance.

The Remington Slugger rifled shotgun slug has been the standard for smooth bore hunters for decades. Its legendary capability of harvesting big game at close to medium ranges without the aid of a rifled barrel has made the Remington Slugger a common name around hunting camp. The slightly oversized diameter of the lead slug creates a perfect seal against the shotgun barrel wall, resulting in more consistent shot-to-shot accuracy and velocity.

Remington offers a complete array of shotgun slugs that are guaranteed to meet the needs of each and every shotgun hunter. In addition to the Remington Slugger High Velocity, Remington offers the following:

- **Premier® Core-Lokt® Ultra** -- The ultimate in jacketed, bonded sabot slugs for the most demanding applications.
- **Premier® Copper Solid™** -- An all-copper high performance sabot slug.
- **Express® BuckHammer™** -- A more traditional lead slug designed to perform extremely well in fully rifled barrels.
- **Slugger®** -- A traditional "Foster" style lead slug preferred by smoothbore shooters.

Offerings for 2003:

- **Slugger® High Velocity Rifled Shotgun Slugs**

	Gauge	Shell Length	Wt. Slug	Muzzle Velocity
New	12 ga.	2 $\frac{3}{4}$ "	$\frac{7}{8}$ oz.	1800 fps Muzzle Velocity

Remington® Brings The 243 Win. To A Whole New Level Of Performance

Madison, NC – The Remington Premier® Scirocco™ Bonded centerfire rifle ammunition line has been expanded to include a 243 Win. 90-grain loading. The Scirocco Bonded bullet elevates the 243 Win to a performance level previously not available. Its unique construction will provide hunters with excellent accuracy, 75% weight retention and reliable expansion with superior terminal performance.

The Premier Scirocco Bonded bullet combines features that put it into a class by itself. No other bullet combines the accuracy and down range ballistics of a "tipped" bullet with the terminal weight retention advantages of bonded construction.

The tapered, pure copper jacket is bonded to the lead core yielding 75% weight retention and controlled 1.6X expansion, unmatched in a tipped bullet. The boat-tail base combined with a sleek polymer tip improves trajectory by reducing drag throughout bullet flight, while the polymer tip initiates expansion at impact and is shaped to reduce frontal air resistance.

Offerings for 2003:

Remington® Premier® Scirocco™ Bonded Centerfire Cartridges

	Cartridge	Bullet Wt.	Bullet Type
NEW	243 Win	90 grain	Swift Scirocco Bonded

Remington® Adds the 454 Casull to Its Line of Core-Lokt® High Performance Pistol and Revolver Hunting Ammunition

Madison, NC – Handgun hunting has grown rapidly in recent years. This demanding sport requires a high level of hunting skill and requires the best equipment available to get the job done. New for 2003, Remington has added the 454 Casull to its line-up of Core-Lokt High Performance Pistol and Revolver hunting ammunition. The 454 Casull offering will feature the new bonded Core-Lokt Ultra bullet.

The Remington Core-Lokt Ultra bullet exhibits four critical elements that ensure devastating on-game performance.

- Bonded bullet construction for nearly 100 % weight retention
- Patented spiral nose cuts provide reliable 1.6X expansion over a wide range of velocities
- Jacket taper specifically designed to insure deep penetration and energy transfer
- Patented driving band that initiates precise bore alignment for match-grade accuracy

Offerings for 2002 are as follows:

Remington® Core-Lokt® High Performance Pistol and Revolver Hunting Ammunition

	Cartridge	Bullet Wt.	Bullet Type
	357 Magnum	165 grain	JHP Core-Lokt
	44 Remington Magnum	275 grain	JHP Core-Lokt

**Remington® Premier® HEVI•SHOT® Buckshot –
Bringing Buckshot To A New Level of Performance**

Madison, NC – Continuing the tradition of providing the hunting and shooting public with the most innovative, trend-setting ammunition, Remington has introduced **Premier HEVI•SHOT Buckshot**. Composed of a proprietary alloy of tungsten, nickel and iron, HEVI•SHOT pellets are 10% heavier than lead. This equates to tighter shot patterns with increased penetration and knockdown power at extended ranges.

Testing at Remington's Research and Development facility has shown a dramatic 40% tighter pattern at 40 yards compared to standard lead buckshot. Even more impressive, the penetration in gelatin is 18% deeper than standard lead buckshot. The deeper penetration and tremendously tighter patterns produced by HEVI•SHOT pellets give the hunter a buckshot load with unheard of performance, unlike anything ever experienced to date.

When Remington Premier HEVI•SHOT made the scene last year, waterfowl, turkey and upland hunters were astounded at the effectiveness of this new product. Remington Premier HEVI•SHOT ammunition has revolutionized the high-performance shotshell market by producing loads that deliver extremely tight pattern density and unmatched down-range pellet energy.

Offerings for 2003:

Premier® HEVI•SHOT® Magnum Buckshot Loads

	Gauge	Shell Length	No. Pellets	Shot Size

The 350 Remington Magnum Returns

Madison, NC – The **350 Remington Magnum** was one of the first short action magnum cartridges available to hunters. Fans of the 350 Remington Magnum admired its ability to be chambered in a light-weight rifle capable of providing true magnum performance. New for 2003, the classic 350 Remington Magnum will be offered in Express® Core-Lokt® line featuring a 200 grain Pointed Soft Point bullet.

Remington® Core-Lokt bullets have long been known for their game stopping ability. The Core-Lokt Pointed Soft Point bullet features a jacket tapered for controlled 2x diameter expansion with the lead core "Lokt" in place for 80% weight retention, perfect for medium to large dangerous game.

In addition to the new Express Core-Lokt offering, Remington has unveiled the Model 673 Guide Rifle chambered in 350 Remington Magnum. This classic combination will surely peak the interest of big-game hunters seeking rock-solid performance, accuracy and reliability.

Remington® Expands Its Highly Successful Line of Premier® HEVI•SHOT® Turkey Loads

Madison, NC – Remington® Premier® HEVI•SHOT® Magnum Turkey Loads have revolutionized shotshell pattern density and down-range high performance. New for 2003, Premier® HEVI•SHOT® Magnum Turkey Loads are now available in both 10 gauge and 20 gauge loadings.

Avid 10 gauge fans will now gain the added performance of HEVI•SHOT® pellets in Remington's first 10 gauge offering. The 1 7/8 ounce magnum loading will be the most lethal 10 gauge load ever produced for those challenging, wary spring gobblers.

For youth and experienced turkey hunters who favor the lighter-recoiling 20 gauge, Remington® Premier® HEVI•SHOT® Magnum Turkey Loads will be offered in a 3"- 1 1/4 ounce load. With the superior ballistic performance of HEVI•SHOT®, the new 20 gauge loading will provide effective energy and lethality on turkeys. Early introduction of the 20 gauge load at the 2002 NWTF Still Target Competitions swept all event championships in Jakes, Ladies and Men's open classes, where tight patterns are required to score well.

The secret to the superior HEVI•SHOT pattern density and down-range performance is its tungsten-nickel-iron pellet composition. HEVI•SHOT pellets are 10% heavier than lead pellets so they retain more velocity and energy at extended ranges.

Offerings for 2003:

Premier® HEVI•SHOT® Magnum Turkey Loads

	Gauge	Shell Length	Oz. of Shot	Shot Size	Muzzle Velocity
New	10 ga.	3 1/2"	1 7/8 oz.	# 4, 5, 6	1225 fps

The Most Effective and Exciting Waterfowl Loads Just Got Better- Remington® Premier® HEVI•SHOT® High Velocity Nitro Magnum Loads

Madison, NC – New for 2003, Remington Premier HEVI•SHOT High Velocity Nitro Magnum loads takes waterfowl hunting to a higher level. At 1425 fps, these shotshells are the hardest-hitting waterfowl loads on the market.

Remington Premier HEVI•SHOT Nitro Magnum waterfowl loads have revolutionized the non-toxic shotshell market by producing extremely tight pattern density and unmatched down-range pellet energy. Waterfowl hunters across the nation are experiencing the increased effectiveness of this new trend-setting non-toxic ammunition.

Remington Premier HEVI•SHOT is composed of a proprietary alloy of tungsten-nickel-iron and is approved for all waterfowl hunting by the U.S. Fish and Wildlife Service and Canada. This exciting product not only outperforms all approved non-toxic shot materials, it excels over lead shot in pattern density and retained energy. Single pellets of Remington Premier HEVI•SHOT are 10% heavier than lead and 54% heavier than steel in equivalent shot size. This all equates to tighter shot patterns and increased knockdown power at extended ranges.

Offerings for 2003:

Remington® Premier® HEVI•SHOT® High Velocity Nitro Magnum

	Gauge	Shell Length	Oz. of Shot	Shot Size	Muzzle Velocity
New	12 ga.	3 "	1 1/4 oz.	# 2, 4, 6	1425 fps
New	12 ga.	3 1/2"	1 1/2 oz.	# 2, 4, 6	1425 fps

Remington® Premier® HEVI•SHOT® Nitro Magnum

	Gauge	Shell Length	Oz. of Shot	Shot Size	Muzzle Velocity
	10 ga.	3 1/2"	1 3/4 oz.	# 2, 4	1300 fps
	12 ga.	2 3/4"	1 1/4 oz.	# 4, 6, 7 1/2	1300 fps
New	12 ga.	3 "	1 1/2 oz.	# 2, 4, 6, B	1300 fps
	12 ga.	3 1/2"	1 3/4 oz.	# 2, 4, 6	1300 fps
	20 ga.	2 3/4"	1 1/8 oz.	# 4, 6	1300 fps

Remington Premier HEVI•SHOT Nitro Magnum loads are now offered in "B" size. This will provide goose hunters with the perfect load for even the most demanding shots on larger waterfowl like giant Canadas and tundra swan.

Remington® Offers High-Volume Handgunners New Alternatives for 2003

Madison, NC – The UMC® LeadLess™ brand covers a broad spectrum of the most widely used pistol and revolver calibers that perfectly cover your needs at the practice range. For 2003, UMC LeadLess will be offered in 9mm Luger 124 grain and a 357 Magnum 125 grain Flat Nose Enclosed Base (FNEB).

Virtually eliminating lead exposure at the firing line, UMC LeadLess pistol and revolver ammunition is comprised of a lead-free and heavy metal-free primer and Flat Nose Enclosed Base bullet that prevents lead vaporization from the bullets base upon firing. In addition to providing a cleaner practice environment, the combination of Remington's industry leading HMF primer and FNEB bullet provide a round that shoots cleaner for more reliable gun function and easier cleaning.

Offering for 2003:

Exciting New Additions To Remington® UMC® Line-up

Madison, NC – To further meet the needs of today's volume shooter, Remington's American-made UMC Line is expanded for 2003. Now fans of the popular 45 Auto will have a more diverse selection of UMC cartridges to choose from with the addition of a lighter 185 grain weight offering.

The 185 grain bullet exhibits the jacket profile of the popular 185 grain jacketed hollow point. This allows the shooter to practice with an economical round and still get the same function, feeding and point-of-impact characteristics from their handguns.

Also new for 2003, select UMC high-volume handgun and rifle cartridges will be available in value pack configurations. Perfect for the range or competition, 9mm Luger will be boxed in a convenient single pack quantity of 100 rounds. For varmint hunters and high capacity target shooters, Remington UMC rifle ammunition will be offered in 40 round boxes of highly accurate 223 Remington and 22-250 Remington with 45 grain jacketed hollow point bullets.

Remington Announces Two Additions to Collectible Knife Series

Madison, NC – Continuing the tradition of our limited edition knife series, Remington is pleased to announce the **2003 Bullet® Knife** and **2002 Wildlife Knife**. These exceptional, limited production knives are classically styled, highly collectible and are made in the USA.

The **2003 Bullet Knife** – "The Pioneer" features a 2³/₄-inch clip blade and 2³/₄-inch spey blade, constructed of 440 stainless steel, in the traditional R1178C, trapper style design. The blades are housed in a brass lining and feature the Remington® trademark etch and contemporary Remington tang stamp. Complimenting the handsome cocobolo wood handles are the traditional Remington nickel-silver bullet shield and stainless steel bolsters and brass pins. Measuring 3¹/₂-inches closed, "The Pioneer" joins a full series of Bullet knives dating back to 1982.

The **2002 Wildlife Knife** – "Coming In To Feed" is the seventh in this series of annual knives that feature paintings from the Remington Art Collection etched on the blade. This well-designed, 3³/₄-inch canoe style knife has vintage bone handles and features a 3-inch drop point and 2¹/₄-inch spear blade with contemporary Remington tang stamp. Adding to this collectible's distinct look is the round Remington Shield on the face side and stainless bolsters and pins. The 2002 Wildlife Knife comes packaged in a two-piece, designer display box and this limited production offering is numbered from one to 1500.

These two uniquely designed knives join a long-standing list of fine, high quality Remington limited edition collectibles.

Impressive Line of Fixed Blade Knives Added to Remington's Legendary Knife Offerings

Madison, NC – The latest addition to the Remington® cutlery lineup is the handsome and serviceable series of **Bird's Eye Maple Laminated Handle Fixed Blade Knives**. These rugged knives are constructed of 420 high carbon stainless steel with one piece, Bird's Eye Maple laminate handles. Known for its hardness and strength, Bird's Eye Maple has a straight grain, fine even texture and light cream white/reddish tinge finish, making this high quality line of knives suitable for the woods or collector's case.

Four versions of the **Bird's Eye Maple Laminated Handle Fixed Blade Knives** will be offered with each featuring the Remington blade etch and tang stamp. The **Clip Blade Knife** and **Drop Point Knife** are great all-around, big-game knives and feature 4³/₄ -inch cutting blades; the **Drop Point Knife with Gut Hook** is ideal for field dressing and has a 4¹/₂ -inch blade; and the **Skinner Knife** has a 3-inch cutting-edge skinner blade. Each knife is housed in a leather sheath embossed with the Remington logo.

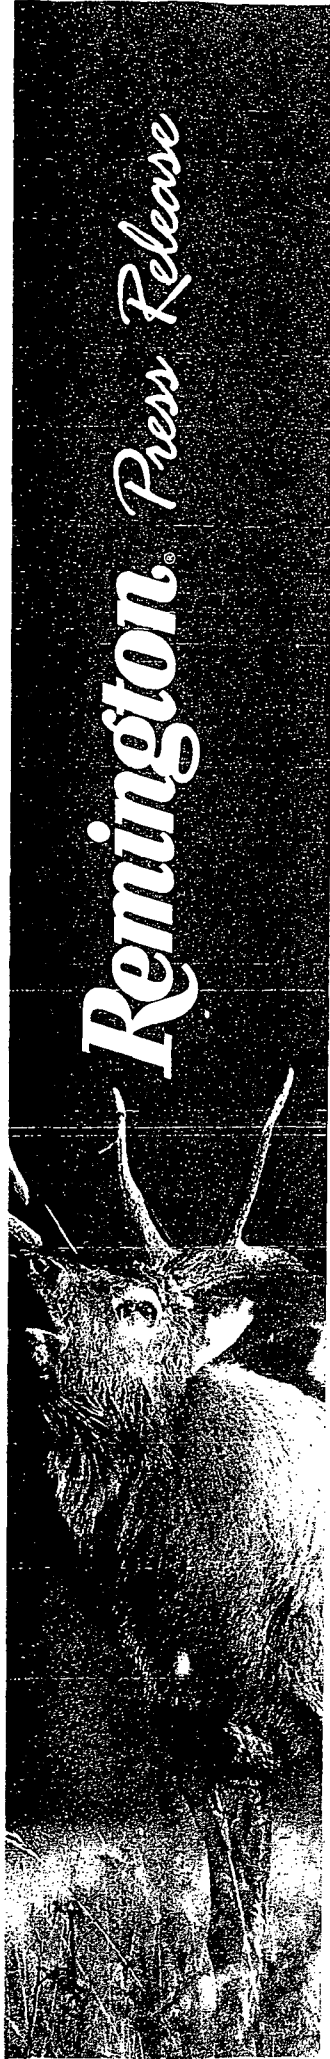

Remington boasts a rich history in the cutlery world and is proud to provide outdoorsmen with this stylish, high quality line of **Bird's Eye Maple Laminated Handle Fixed Blade Knives**.

The New Remington® R3™ Recoil Pad Takes the "Punch" from a Rifle or Shotgun and Turns It Into a "Push"

Madison, NC – Remington is pleased to announce the **R3 Recoil Pad**, featuring the innovative LimbSaver™ technology designed by Sims Vibration Laboratory. This revolutionary, shock-reducing product initially will be featured on premium synthetic versions of the Remington Model 700™, Model 11-87™, Model 870™, Model SP-10™ and the new Model 1100™ Competition Master shotgun. The **R3 Recoil Pad** will also be offered as an after-market accessory in the Remington Factory Parts and Accessories line for most synthetic versions of Remington shotguns and rifles (for a complete listing of applicable models, please see the table below).

Utilizing a three step process designed by Sims, the new **R3 Recoil Pad** is not just another recoil pad. Combining noise and vibration control material, the LimbSaver technology and the patented Sims Decay Time Modification System, this scientifically designed technology displaces shock on a broadband spectrum (0 to 2500 Hz) to ensure maximum shock relief from recoil and greater protection to the shooter. Simply put, less felt recoil equals more enjoyable shooting on the range and in the field.

Sims Vibration Laboratory entered the firearms accessory market in 2002 and introduced their LimbSaver technology, quickly earning the title of "Quite Simply the Best Recoil Pad on the Market." Remington is proud to offer this patented, recoil dampening technology exclusively on our most popular lines of rifles and shotguns and as an accessory offering.

Remington Adds Leather Shell Bags and Pouches to Premier® Line of Gun Club Accessories

Madison, NC – The Remington® Premier Gun Club line offers shooters, an impressive array of shell bags and pouches in a traditional English shooting style with timesaving snap on belt loop feature. New for 2003 is an attractive line of leather bags and pouches sturdily constructed of high quality, genuine camel colored suede and dark brown leather trim. Each bag or pouch features an oil tanned, leather Remington patch. And adding to the durability is a laminate backing of genuine suede.

The Leather Premier Line includes the **Leather Mesh Shell Bag**; the **Leather Reloaders Shell Bag** featuring two shell pouches for extra capacity and a mesh, zippered bottom for filtering of unwanted debris or dirt; the **Leather Divided Shell Pouch** with mesh front and internally bound baffle for added strength between large-capacity compartments; and the **Leather Single Shell Pouch** which features a handy side pocket for those hard-to-find items.

Whatever your shooting venue, Remington has a gun club bag to meet your needs.

Remington's Line of Factory Authorized Parts and Shooting Accessories to Expand

Madison, NC – Remington provides hunters and shooters with an extensive line of high quality, factory authorized parts and accessories and for 2003, Remington is pleased to announce the following new offerings.

Model 597™ Magnum Metal Magazine Clip – For reliable performance at the range or in the field, all magnum versions of the Model 597 family are equipped with this new metal 8-shot capacity magazine clip. Interchangeable for .22 WMR or .17 HMR versions of the Model 597, the metal clip is constructed of a durable, lightweight Magnesium-based alloy and is die cast. The design of the Model 597 Magnum Metal Magazine Clip will provide smoother feeding of rounds and is a "must have" accessory for the rigors of rimfire shooting.

Universal Magazine Cap with Swivel Stud – Designed to fit all 12 gauge Model 870™, Model 1100™ and Model 11-87™ shotguns with no tools required. The Universal Magazine Cap is constructed of machined steel and provides for ease of sling attachment to your favorite Remington shotgun.

Xtra EZ Sling with Universal Magazine Cap and Swivel Stud – Introduced to our line of accessories in 2002, the Xtra EZ Shotgun Sling measures 1 1/4 x 54 inches and is assembled with black oxide/brass Chicago screws and nylon slide buckle. Constructed of rugged black, mil spec webbing and superior quality slide buckle, adjustments are easily made by pulling on the outside to lengthen and on the inside to shorten the sling. An embroidered traditional Remington logo completes the sling. Adding the Universal Magazine Cap with Swivel Stud makes this offering the choice of hunters wanting a fully assembled sling package.

Leather Designer Sling – Joining the versatile and durable Remington® line of rifle and shotgun slings is the new Leather Designer Sling, which features a lifetime warranty. Constructed of top grain, dark brown leather, this top-of-the-line sling is suede-lined to eliminate slippage and embroidered with the Remington "R" logo.

Remington® Press Release

Remington Introduces the Elite Safe Series

Madison, NC – Joining the company's impressive line of home security safes and accessories, Remington is proud to announce the new Elite Series with seven initial safe offerings including the Silver Elite 15, Silver Elite 23, two versions of the Gold Elite 23, Gold Elite 26, Platinum Elite 35 and Platinum Elite 48.

All safes in the Elite line feature newly designed external hinges, fire resistant OMEGA rating of 1200 degrees for 30 minutes (45 minutes in the Platinum Elite safes), Flex interior configuration (Easy Out interior on Silver Elite 15 only) and one inch thick composite fire-sealed doors with the traditional Remington® logo. And as with all Remington safes, the Elite series has a UL listed residential security rating and limited lifetime break-in warranty.

The **Silver Elite 15** has an internal volume of 15-cubic feet with room for up to 21 firearms with external dimensions of 24"W x 55"H x 20"D. The body of the safe is constructed of 12-gauge steel in a textured, gray granite finish, complimented by the polished chrome hinge caps and brushed chrome, single handle. The Silver Elite safe has 8 one-inch locking bolts (four active and four stationary) with aluminum bolt guides for whisper quiet operation and a Sargent & Greenleaf (S&G) bank-type locking dial. The interior and inside door panel are covered in a gun-metal gray premium fabric.

With a spacious 23-cubic foot volume and room for up to 25 firearms, the **Silver Elite 23** offers all the standard features of the Silver Elite 15 with the addition of two locking bolts (five active and five stationary) and a rich interior carpeting and covered inside door panel in gun-metal gray. External dimensions are 30"W x 60.5"H x 22"D.

The **Gold Elite 23** and the **Gold Elite 23 with 3 Spoke Handle and Electronic Lock** safes provide added security in a more luxurious package. Both models are constructed of 12-gauge steel in Classic Black, Metallic Burgundy or Forest Green with polished brass single handle, hinge caps and S&G locking dial. The 11 one-inch locking bolts (six active and five stationary) are housed in whisper quiet aluminum bolt protectors. With overall dimensions of 30"W x 60.5"H x 22"D and an interior capacity of 23-cubic feet, the Gold Elite safes can accommodate up to 25 firearms. The Gold Elite 23 has a premium fabric interior and covered inside door panel. For the ultimate in security and décor, the Gold Elite 23 with 3 Spoke Handle and Electronic Lock features a UL approved electronic lock, polished brass three-spoke handle and soft buckskin interior and covered door panel.

Remington Introduces the Elite Safe Series (cont'd.)

Completing the Gold Elite line is the **Gold Elite 26** with a capacity for up to 28 firearms and roomy interior volume of 26-cubic feet and 24-inch depth. Available in Classic Black, Metallic Burgundy or Forest Green, the 11-gauge steel body features a S & G Group II lock, polished brass hinge caps and three-spoke handle. The 11 one-inch locking bolts are all active and have aluminum bolt guides. The inside door panel and flex interior are covered in our premium velour buckskin

At the top of the Elite series are the Platinum offerings with overall dimensions of 36"W x 60.5"H x 27.5"D, these large capacity, high-end safes feature external hinges with 14-karat gold hinge caps and three-spoke handle with oversized hub and are available in Classic Black, Metallic Burgundy or Forest Green finishes on the 11-gauge steel body. Both Platinum Elite safes feature the premium velour buckskin interior and covered inside door panel. The **Platinum Elite 35** has a voluminous 35-cubic foot interior and 27-inch depth with space for up to 39 firearms. Added security features include 11 active, one-inch locking bolts with aluminum bolt guides, S & G Group II lock and 1200 degrees/45 minute OMEGA rating. The **Platinum Elite 48** is at the top of this safe series featuring the higher, 45-minute fire resistance rating, 13 active one-inch locking bolts and our largest interior with room for up to 52 firearms. With a depth of 27 inches and a 48-cubic foot volume, the Platinum Elite 48 outweighs the competition with its added safety amenities and overall capacity.

The introduction of the Elite Series to Remington's high quality line of safes and accessories, gives firearms enthusiasts a wide range of moderate to premium choices for home security.

Youth Shooting Muffs Added to Remington's Comprehensive Line of Hearing Protection

Madison, NC – Remington offers shooters an array of hearing protection from the convenient, disposable **P-30 Insert Plugs** to the advanced technology of the **R2000™ Electronic Muff** and new for 2003 is our **Youth Shooting Muff**.

Realizing the fit of protective shooting muffs for a youth or smaller stature adult is not the same as the standard adult versions; Remington is offering a durable, well designed muff with vinyl ear cushions for a positive seal and multi-position, synthetic headband that adjusts for varying youth sizes. Gun stock relief cuts on the muff are added for more comfortable shooting. The **Youth Shooting Muff** has a Noise Reduction Rate (NRR) of 22.

Remington's comprehensive line of hearing protection offers a product to meet every shooter's needs.
