Firearms Pre-litigation concerns worked on this period:

Fred Harris – Remington 700 (prod: 1979): Harris stated that he was deer hunting and didn't see anything so he went back to his truck to unload and it fired when he was trying to eject shooting his truck. He inherited this rifle from his father. He's only had it a week and did not clean it before using. Condition when received in Ilion showed bolt rusted, light rust and dirt in the trigger assembly and the bolt stop binds however they could not duplicate the claim that it would fire on bolt opening. He was quoted to replace the TPA, clean, test at \$37 plus tax. He refused and asked that it be returned as received. He later called and asked to speak with our Legal Dept. Dale Will's requested that the rifle be repaired no charge and had a release signed by Harris.

Renee Mclure – Remington 700 (prod: 2004): Customer stated that on 10/13/11 she had rifle laying down on their truck & took the safety off - the gun fired into their truck & did damage. She asked that we pay for the gun repair & the damage to their truck. Per inspection by Ilion, could not duplicate firing on safety release. Parts clean and within spec. Derek Watkins called. He stated to replace TA, clean & test fire & n/c. Dale Wills office handled the truck damage.
