M-700 IMPROVEMENTS - Cut Checkering

Since I expect to be away next week, am passing along word to Dr. Calhoun that you will let him or John Turner know if you want any help from Harold or his people on the above job. I told him that it was my impression you were not planning to assign this to Harold, apparently because he is already spread so thin. On the other hand, if you are planning on considering Wells Index Company basic unit you may want Harold to help on some of the preliminaries to take advantage of their earlier visit with them.
