Suggestion Plan

Suggestion Plan data for the month of October 1974 are as follows:

	Current Month	Total Year to Date	Total Last Year to Date
Suggestions received in effect withdrawn pending Cash awards Estimated gross savings Average award per suggestion	17 6 5 131 \$ 245. \$ 2,520. \$ 41.	219 66 130 131 \$ 3,858. \$ 47,260.	218 69 119 114 \$ 4.538. \$ 59.480. \$ 66.

Methods Studies

Economics were completed for the First Year Accomplishment Report on In-Plant molding of polystyrene inserts for the new shotgum cartons.

Economics have been updated and revised to reflect changes that have been made to the Press Form Process for M/870 Fore Ends. Eliminating operations to Form Corners and Harper Buff have changed the project from a cost increase to a cost savings.

A Methods Review was completed for (3) operations in Dept. #55 on the Expanded Polystyrene Block resulting in a substantial labor savings.

Capacity studies were completed and equipment requirements listed for the Production Section based on the new 5-Year Executive Committee's Projected Forecast.

Assistance was given Production with the development of machine groupings and labor assignments to meet current production schedules on the Rim Fire Barrel Torrington swagers.

3200 N/C Tool Usage Report was issued for Dept. 53 as part of a program to improve tool usage and reduce tool inventories.

Method Reviews of the Centerfire Rear Sight Aperture and slide groups resulted in a substantial reduction in labor costs,

The following layouts were completed this month:

- . 1. Completed a layout for Bldg. #50-4-N to provide space for the M/3200 Final Assembly.
 - 2. Re-arranged equipment in Bldg. #48-1-S to regroup the M/870-1100 Barrel heading and Ejector groups to provide for additional capacity.
 - 3. Revised the layout for Bldg. #48-2-N (Cutter Grind) to provide market space in AR. 3 the 4th Barber-Coleman Hob Grinder.
