Re: Gerald Hansen v. Remington Arms Company, Inc.

Dear Mr. Bussey:

Examination has been completed on the subject's Remington Model 700 30-06 caliber rifle, serial number 6631755.

The returned rifle, which was produced in March 1973, has been thoroughly examined by our firearms experts who report that it contained our high-pressure proof test, gallery test, and final inspection stampings, indicating that it had successfully passed all our necessary tests prior to shipment.

~~The examiners went over all individual parts and tolerances and they were found to be within our specifications both manufacturing-wise and metallurgically. The rifle was found to function normally in every respect and we could not duplicate the incident.~~

Return shipment of the rifle was made to:
