Bridgeport, Connecticut
April 22, 1980

TO: J. P. LINDE
J. W. BROOKS

FROM: P. H. HOLMBERG

SUBJECT: XP-100 SILHOUETTE PISTOL

Confirming my conversation of today, we accept the prototype model of the new version utilizing four front ramp mounting positions.

All future production of this gun is to include four front ramp mounting positions. The gun is to be shipped with the front sight base positioned over hole #3 (the third hole rearward of the muzzle). Holes #1 and #2 are to have plug screws attached.

Please let me know if you have any questions.

Paul
