"CONFINE YOUR LETTER TO ONE SUBJECT ONLY" _____

Ilion, New York
February 23, 1981

TO: W. H. FORSON
FROM: C. B. WORKMAN *← File*
SUBJECT: BOLT ACTION CARBINE

The Development Schedule calls for defining model requirements in October 1980.

Our letter of October 28, 1980 stated the direction we would take after evaluating the field test results. On November 3, 1980 we sent a follow-up letter stating what we understood to be the new requirements along with confirming the requirements that remained the same. The main changes were to the barrel, stock and floor plate latch.

In order to meet the October 1982 warehouse date, we need Marketing's agreement on model specifications by March 1. We do not have enough time before product acceptance to field test this model.

C. B. Workman, Manager
Firearms Research Division
