TO: C. B. WORKMAN

FROM: T. L. CAPELETTI *TC*

SUBJECT: MODEL 700 FEATURES FOR POSSIBLE USE IN ADVERTISING

In response to Marketing's inquiry concerning strengths of the M/700 design which may be used in advertising campaigns, I asked Fred Martin to itemize areas he felt were significant. Fred provided me with the following information:

- | | | |
|--------------|---|---|
| * Strength | - | Action - Ability to withstand abuse of inexperienced handloaders. |
| | | Extractor - Comparison of competitive systems. |
| * Accuracy | - | Still the most accurate production center fire rifle made. Accurate enough to be used competitively "out of the box". |
| Fire Control | - | Adjustable and smooth; still the best production trigger available - with planned modifications, will have another safety feature to advertise. |
| Calibers | - | A caliber and a loading available for anything from ground squirrels to Kodiak and Brown bear or elephant and rhino. |
| Adaptable | - | Several variations are available for military and police work. Gun/cartridge combination can be tailored to individual application. |

As indicated by the *, Fred feels that strength of the action and extraction systems and accuracy are prime selling points for these rifles.
