TO: C.E. Ritchie

FROM: J.H. Hennings

SUBJECT: Internal Measurements of Previously Tested B.A.C. - 7MM 08 Cal.
Rifles Plus Controls Request No. 820341

Attached are the data sheets illustrating the measurements taken and the figures obtained. All measurements were conducted at the Custom Gun Shop under the direction of L. Blackhurst.

Measurements No. 6, 7 and 11 could not be taken as requested without sectioning the chamber area. A technique has been established by W. Cable to produce repeatable measurements in this area without destroying the barrel.
