SUBJECT: MODEL SEVEN LIGHTWEIGHTS FOR NEW PRODUCTS SEMINAR

The New Products Seminar is scheduled for November 7-10, 1982. This will be an ideal opportunity for us to introduce the Model Seven to the Outdoor Writers.

Ted McCawley indicated about 30 rifles will be required in 7mm-08 Rem. The samples previously built for Marketing field testing were 7mm-08 Rem. and can be used. Additional rifles must be made up so that a total of 30 are available for the November hunt.

If you see any problems in meeting this schedule, please let me know.
