TO: T. L. CAPELETTI  
FROM: W. H. FORSON  
SUBJECT: MODEL 700 ADL RESTYLE

Since our meeting on April 19, 1982, there has been a revision to the M/700 ADL restyle. Model requirements are the same as listed in your letter to Clark Workman dated April 22, with the following exceptions:

- Add iron sights, same as present M/700 ADL
- Delete scope mounts
- Add calibers 222, 6MM, 25-06, and 308. The 7MM Express Remington will not be included due to anticipated carryover of present model. Revised M/700 ADL will be made in nine calibers; present model has ten.
