

SAFE "OFF - ON" FORCES

1 B. Procedure - cont'd.

5. Since the Safety Selector Switch is in the "Safe" position, the first reading will be for Safe "Off".
 - Push the Safety Selector Switch with the push-pull gauge from the "Safe" position to the "Ready to Fire" position.
 - Record the force, measured in pounds, in the Safe "Off" column of the Test Procedure Sheet. (Figure 4 - 14)

Figure 4 - 14

6. Since the Safety Selector Switch is now in the "Ready to Fire" position, the next reading will be for "Safe On".
 - Reset the push - pull gauge. Procedure 1 B. No. 4.
