

Bolt Action Strategy

5-26-80

See BDL

- These guns have to look different.
- How do we make integral receivers possible.
- marketing wants - octagonal top.
- patterns should be flat - recoil lug - longer and integral with receiver.
- Scope mounts
 - Redfield Systems - "look" we need one.
 - elevation and windage needed - ?
-
- Next, Bolt Bolt - Log on BDL - gun smooth action.
- Show and long action.

+

• New belt stop - & return - look at outside

Safety : ?

m/700 - manufacturing no problem.

m/788 - production was better (John Smith)

• trigger should have a pull adjustment

• adjustment should be fail safe - down to

ground and half - ← scale on 3rd lower
limit

• Seer - change material - ? Powder metal
- to - ? Low stock

• external adjustment.

• instructions folder - should be as there
as uniform customer how to adjust.
