

9-30-84

Dear Remington Arms,
(SA. Stahl)

I took the gun to Frank
Stahlkupa, a gunsmith in Hiawassee, Georgia (Rt1, Box 78,
404-896-4974) Frank assures me the trigger mechanism
has never been touched. He satisfied himself of this
and reassembled the gun without working on it. Two

Witnesses will attest that my finger never touched
the trigger. For names and addresses see my
first letter. You can see for yourself the gun is
like-new condition and properly maintained.

Upon reconnection of this defect in the
safety I would also like to be reimbursed
for the following expenses:

- 1.) my shipping and insurance costs - (please
see this package for postage)
-
- and the repair costs for my window - \$119.24
(for pyrexia, glass, putty, and a
replacement storm window)

Sincerely,

Dick Key
