Subject: MODEL 770 SIDE PLATE
Attachments: image001.gif

Gerald,
There should be some more modified sideplates for the Model 770 that were left behind during Will's visit yesterday. These would have a slot cut on the right side of the part for the trigger block. I think there should be 5 to 10 extra parts that were not used. Can you check for those sideplates and return them to E-town?

Thanks,

Vincent Norton
