Subject: CAD ASSISTANCE

I need the Model 710/770 sear safety cam detailed in both the blank and finished configuration. The blank and finished part numbers are EXP10399 and EXP10400 respectively. The model is in "et03ap03\CAD Files\Rifle\Model 710\EXP10400 Sear Safety Cam. Use the Model 710/770 sear as a guide for dimensioning and tolerancing and the Model 700 (X-Mark Pro) sear as a guide for MIM coring and material & heat treat specs. The detail drawings can be saved in the same directory.

Thanks,

Vincent Norton
