

[Design Objectives]

- Design a less expensive alternative to the X-Mark Pro for the Model 770
- Keep the same safety features of the X-Mark Pro
 - Block trigger when gun is in safe
 - Return the trigger when put in safe
 - Remove the connector
 - Balance trigger

November 2015
Remington Arms Company, Inc.

[Design Approach]

- Add as few new parts as possible
- Keep the current concept of a plastic receiver insert
- Utilize a proven safety arm design
 - Safety arm similar to the X-Mark Pro
- Provide a translating trigger block with an adjustment screw

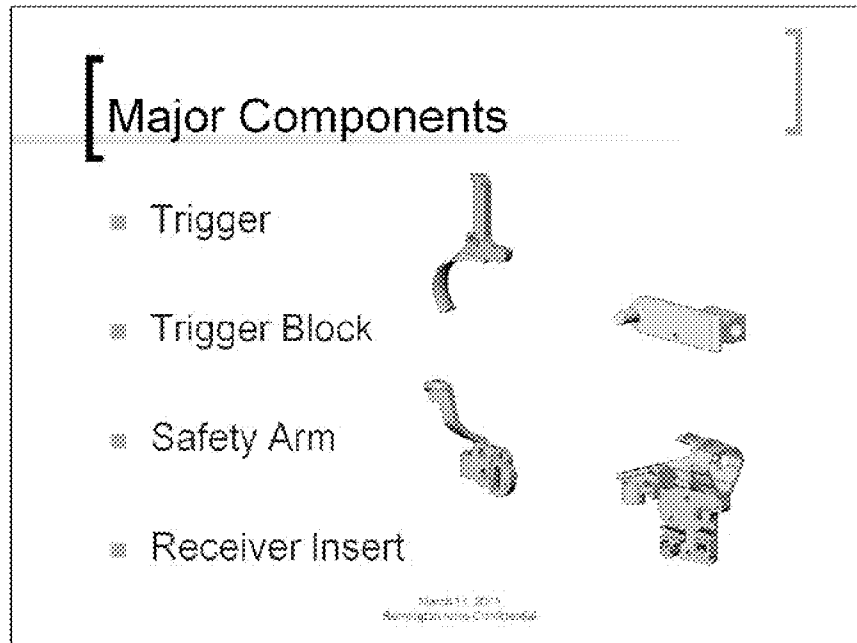

March 11, 2015
Remington Arms Company, Inc.

[Results]

- ❖ Designed and tested a new fire control with the following benefits
 - Trigger is returned and blocked when moving from fire to safe
 - Removed connector improving assembly and reducing scrap
 - Total part count is unchanged
 - Cost of new fire control is equivalent to cost of current assembly
 - ❖ Did not increase the cost to manufacture the gun

[Part Breakdown]

- New Parts
 - Trigger Block
 - Trigger Block Screw
- Modified or Substituted Parts
 - Receiver Insert
 - Side Plate
 - Trigger
 - Safety Arm
 - Safety Detent Spring
 - Safety Pivot Pin
 - Engagement Screw
- Obsolete Parts
 - Over Travel Screw
 - Connector

March 11, 2015
Remington Arms Company, Inc.

[Tooling Required]

- Receiver Insert
 - New injection molding tool
- Trigger and Trigger Block
 - New MIM tool required for both
- Side Plate
 - New stamping tool
- Safety Arm
 - New stamping tool

Remington Arms Company

[Project History]

- ※ Prove out concept using rapid prototypes (2 guns)
 - Complete – January 9, 2007
- ※ EET (3 guns)
 - Complete – June 8, 2007
- ※ DAT (20 Guns)
 - Completed November 16
 - 20 Model 770's tested
 - ※ Function testing of 10 Model 770's in 30-06
 - ※ Drop testing of 5 each .243 WIN and 7mm REM MAG

November 2007
Remington-Union Carbide

[Production Budget]

- Capital Tooling Cost - \$203,186
- Operations Cost - \$1,700

March 11, 2015

[Status]

- ✦ CAR has been written and approved
- ✦ Production tools are currently being ordered

November 2015
Remington Arms Company

[Schedule]

- ※ Order Production Tooling
 - March 14, 2008
- ※ Production Tooling Complete and FAS approvals
 - July 31, 2008
- ※ Production parts available
 - August 29, 2008
- ※ First Production Build
 - September 30, 2008
- ※ T&P Complete
 - October 31, 2008

March 14, 2008
