Gerald,
Today I am sending you 15 Model 770 receiver insert blanks, 15 side plates and 15 engagement screws. When you receive these please assemble them and return to me. I need the threaded insert welded in the back for the takedown screw. I also need the engagement screws I am sending you pressed into the housing along with the current trigger pull adjustment screw and spring and then have the side plates riveted on. The project number is 241493. If you can get those back to me ASAP I would appreciate it.
