**Subject:** Reducing M700 Trigger Pull  
**Location:** Steve P's Office

**Start:** Mon 7/9/2007 1:00 PM  
**End:** Mon 7/9/2007 2:00 PM

**Recurrence:** (none)

**Meeting Status:** Meeting organizer

**Organizer:** Perniciaro, Stephen  
**Required Attendees:** Balio, John R.; Orf, Robert J.; Doolittle, James F.; Bennett, Gary; Truax, Sheldon F.;  
Becker, Craig; Ronkainen, Jim; Joy, Robert L.  
**Optional Attendees:** Shoemaker, Christopher D.; Pugliese, Joseph M.; Diaz, Danny

1. Please review the attached email from John Trull.
2. The purpose of this meeting is to brain-storm some solutions to reducing the M700 trigger pull from 3 1/2 - 5 1/2 pounds to 3 to 4 pounds before we have a discussion with Marketing.
3. Some things to consider:
  - Can we set the trigger pull just before the gun goes in the box?
  - Can we use slave stocks through the gallery?
  - Can we proof, test and target the guns without a stock?
  - Can we get the adjustable 40X version going quicker?
  - Can we set the trigger pull lower at build and live with the low trigger fallout?

**Jim Ronkainen - Please call in to my number 315-895-3365**
